

Connect to Zoom

Use the panel to connect to Zoom and not your laptop. This gives you better control over the cameras and other room technology.

1. Tap **Conferencing** on the touch panel and then **Zoom App**.
2. Tap **Join** and then enter the **Meeting ID and Passcode** from the meeting invite.
3. Use the Zoom Controls on the touch panel's Zoom App screen to control volume, record, chat, invite, etc.
4. Tap **End Meeting for All** to end the Meeting.

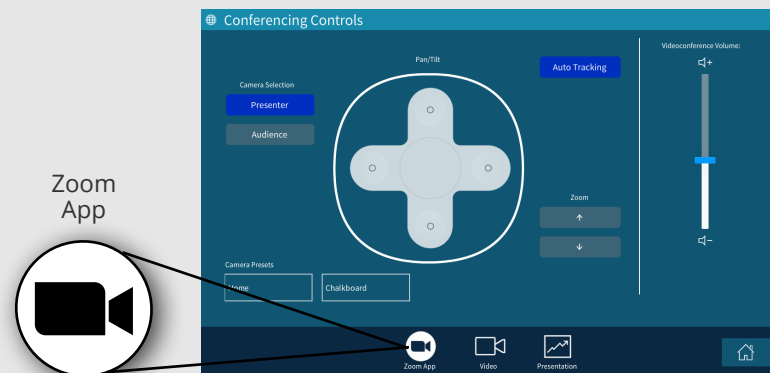

Switch Between Controls

Once connected to your Zoom meeting, swipe down from the top of the touch panel and tap **Home** to move from the Zoom App to **other room controls** (e.g., camera and display).

To return to the Zoom meeting controls, tap **Zoom App**.

Note: If you returned to the main screen, tap **Conferencing > Zoom App**.

Share Content

1. Swipe down from the top of the Zoom App screen to display the panel menu.
2. Tap **Home**.
3. Tap **Presentation** (bottom) and select the device you want to share (i.e, Document Camera, Wireless Presentation, Desktop or Laptop). Zoom supports only single device sharing.
4. Tap **Zoom App**.
5. Tap **Share Content** and then **Share to Meeting**.
6. Tap **Sharing Content** to stop sharing.

Allow Remote Participant to Share

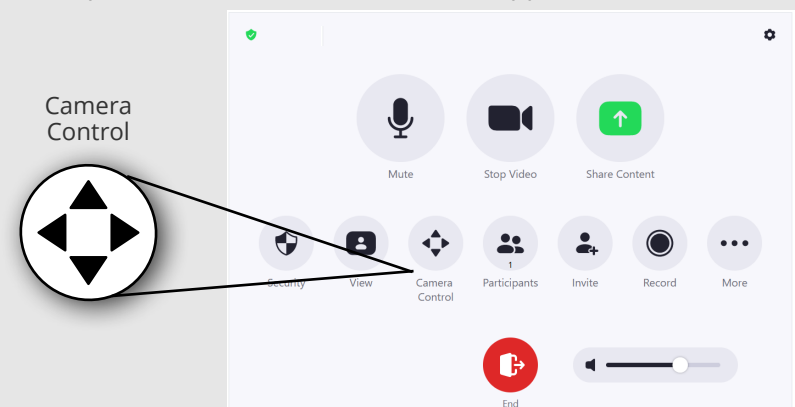

1. Tap **Zoom App**.
2. Tap **Security** and turn on **Share Screen**.

Camera Controls

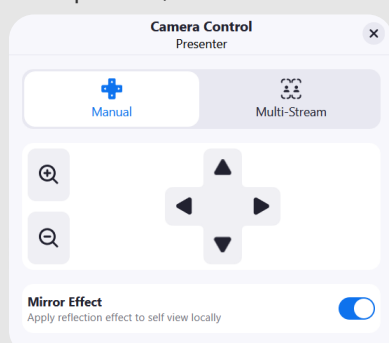

Note: Camera controls are available once you start your video.

Zoom App Options

1. Tap **Camera Control** on the Zoom App screen.

2. Use the options to pan/tilt, zoom in/out or turn off mirroring.

More Camera Options

1. **Swipe down** from top of the Zoom App screen to display the panel menu.
2. Tap **Home** then **Video**.
3. Use the **controls** to pan/tilt the cameras.
4. Choose the camera.

Presenter > Home (camera preset) - wide front view of the room

Presenter > Chalkboard (camera preset) - zoomed-in view of chalkboards

Audience - wide view of the audience

5. Tap **Auto Tracking** to turn off/on.
