

This form is for students who petition for admittance to the MS in Civil & Environmental Engineering- Applied study track. This track is for students who would like to pursue an internship after one semester of graduate study. Be sure to consult with your advisor for assistance with this decision.

You will need to successfully complete all coursework requirements outlined in the CEE MS Student Handbook. University policy states that once a graduate student has successfully completed a minimum of 102 graduate-level units they must be certified to graduate.

Additional Course Requirements:

Course	Title	Units	Semester Offered
12-994	Internship in Civil and Environmental Engineering	3	Summer
39-699	Career and Professional Development for Engineering Masters Students	3	Fall and Spring

This form must be submitted in your first semester of full-time study, no later than the 10th day of classes. No requests will be considered after this date.
