WQED (4802 Fifth)	Yellow	Yes	1960's?	

1 All buildings that are listed as Red or Yellow must be assessed for asbestos prior to commencing work and all buildings that are listed as Green do not need assessed for asbestos prior to commencing work.

Red= high likelihood of encountering asbestos materials

Yellow= moderate likelihood of encountering asbestos materials

Green= no risk of encountering asbestos materials

2 Thermal systems insulation and surfacing materials (e.g. plaster) in buildings constructed on or before 1980 must be presumed to be asbestos containing material until appropriately sampled.
