Overview

What is a Purchase Order (PO)?

An on-line **form** completed in the Oracle Financials System and then issued by a Carnegie Mellon University (CMU) **buyer** to a **supplier** indicating types, quantities, and agreed prices for products or services the supplier will provide to Carnegie Mellon. Sending a PO to a supplier constitutes a legal offer to buy products or services. Acceptance of a PO by a supplier usually forms an agreement between the buyer and seller.

In this training manual, the focus will be on creating purchase orders and receiving against the purchase orders.

If you recall from Oracle 101, data entry forms can include Headers and Lines and some forms like the Purchase Order also contain distributions. In this course, you will enter three variations of Purchase Orders as shown here.

| PO Exercise #1 | PO Exercise #2 | PO Exercise #3 |
|--------------------|--------------------|--------------------|
| PO HEADER | PO HEADER | PO HEADER |
| PO Line 1 | PO Line 1 | PO Line 1 |
| >>Shipment 1 | >>Shipment 1 | >>Shipment 1 |
| >>>>Distribution 1 | >>>>Distribution 1 | >>>>Distribution 1 |
| PO Line 2 | PO Line 2 | |
| >>Shipment 1 | >>Shipment 1 | |
| >>>>Distribution 1 | >>>Distribution 1 | |
| | PO Line 3 | |
| | >>Shipment 1 | |
| | >>>Distribution 1 | |
| | PO Line 4 | |
| | >>Shipment 1 | |
| | >>>>Distribution 1 | |

We'll begin with PO Exercise #1. This is a simple purchase order containing two PO Lines with one shipment and one distribution for each PO Line.

Entering a Purchase Order, Exercise #1

The Vice President of your division has selected a new table and chairs for the main conference room. The furniture will be purchased from one of our existing Oracle suppliers, Tri-State Office Furniture.

The conference table itself is \$6,000 which is over the \$5,000 threshold for capital furniture here at CMU. The chairs, however, are \$110 each. You are purchasing 15 chairs. When deciding if the furniture is capital or non-capital, each piece is typically considered individually. Thus, the chairs are non-capital furniture as they are well below the capital threshold.

We will have to enter two separate lines on this PO, one for capital furniture and one for non-capital furniture, because different object codes will be used in the Distributions (account strings charged).

Note: The cumulative value of this purchase above the micro-purchase threshold. Remember, any purchase more than \$5,000 must be made via purchase order.

To start, be sure to select the Oracle responsibility that is the appropriate ledger for the purchase order you wish to enter.

For today's training session, we will be working in the **USA Ledger**.

1. At the Oracle home page expand the responsibility **USA POREQ Buyer and Approver**, then expand the Purchase Orders folder, and click on the **Purchase Order Summary** link.

| USA POREO Buyer and Approver | ^ | Worklist | | | | |
|---|---|--|---------|-------------|------|---------|

- 2. From the Home Page the system opens a blank **Purchase Orders** form for data entry.

Purchase Order (PO) Header

3. Data entry begins in the PO header section. The header section contains general information about the purchase order, such as the Supplier, the Buyer and so on. The header also contains the Description field that buyers use to enter the business justification.

| Operating Unit | CM OPERATING UNI | Created | 02-JUL-2018 15:33:36 | | | |
|----------------|------------------|---------|----------------------|----------|------|-----|
| PO, Rev | | 0 Туре | Standard PO | J | | |
| Supplier | <u></u> | Site | | Contact | | |
| Ship-To | | Bill-To | ACCOUNTS PAYABLE | Currency | USD | |
| Buyer | TAYLOR, MARY K | Status | Incomplete | Total | 0.00 | []] |
| Description | | | - | 1 | | |

Operating Unit CM OPERATING UNIT (

a. The Operating Unit <u>Operating Unit</u> <u>CM OPERATING UNIT</u> will default with the appropriate value for the ledger you are working in. Although this field is yellow, it is protected from update. The <u>Created</u> 02-JUL-2018 15:33:36 field and the

PO, Rev fields are gray. This means they are protected from

update by the system and you cannot enter data into these fields. The Created field is systematically populated with the data and time (EST) the purchase order was started. The PO number is populated by the system when the PO is saved. The Rev (Revision) number is incremented by the system each time a PO is altered after initial approval.

- b. The system automatically defaults to the first yellow field called Type.
 Type Standard PO
 Always accept the default value of "Standard PO".
- c. Press the Tab key on your keyboard. This moves your cursor to the Supplier field. Click on the List of Values icon. The supplier

must be in the university's Oracle supplier database in order to be selected.

| Warning: Entering | lue to limit the list, % to see g % to see all values may t ne list may be significantly f | ake a very long time. Ente | ring criteria that ca | in be |
|-------------------|--|----------------------------|-----------------------|-------|
| Find | | | | |
| Supplier | | Number | On Hold | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| a | | | | F |
| | Eind | QK Cancel | | |

d. The List of Values is not empty. Imagine all the suppliers Carnegie Mellon (CMU) has used over the years. Let's narrow down the list. In the Find

field, enter "TRI-STATE%".

 Note: In Oracle, "%" is a wildcard. Entering "TRI-STATE%" will only bring back any results **starting with** "TRI-STATE." Likewise, entering "%TRI-STATE%" will bring back any results **containing** "TRI-STATE."

| /arning: Enterin | lue to limit the list, % to s g % to see all values may ne list may be significantl | y take a very long time. Ent | ering criteria that can |
|----------------------------|---|------------------------------|-------------------------|
| id <mark>TRI-STATE%</mark> | | y laster. | |
| Supplier | | Number | On Hold |
| | | | |
| | | | |
| | | | |
| C. | | | |
| | Eind | QK Cancel | |
| | Find | | |

- E. Click of the Button.
- f. A reduced List of Values displays.

| Supplier | Number | On Hold | |
|--------------------------------|--------|---------|--|
| TRI-STATE OFFICE FURNITURE INC | 91500 | | |
| | 11654 | | |
| | | | |

g. Select "TRI-STATE OFFICE FURNITURE INC".

- 4. The Supplier is populated and the system moves to the next field. It is the <u>Site</u> field. Some companies may have different warehouses/plants from which they ship their product. These are referred to as "sites".
- 5. Remember what a white field indicates? Though this Site field is "optional" for Oracle, it is required for CMU business purposes. If the Supplier you selected has only one Site, the system will automatically populate the field. If the supplier has multiple sites, the List of Values icon will display in the field. Click on the List of Values.
- 6. The list is reduced to the Sites applicable to the Supplier we selected, namely, Tri-State Office Furniture Inc. You will become familiar with the sites for a particular supplier as you work with the supplier. For this example, this supplier has two Sites, choose **Pittsburgh PA**.
- 7. The Contact field is optional for Oracle and for CMU business policy. Click on the List of Values. When you do you should see the message

FRM-41830: List of Values contains no entries. at the very bottom left of the screen. Contacts may or may not be entered at the time of supplier setup. We'll leave it blank. Press the Tab key on your keyboard.

8. The Ship-To field is also required by CMU business policy even though it is white. Ship-To "locations" have been setup for different campus areas. We want the new furniture delivered to the UTDC Building on Henry Street. Let's use a shortcut to find the location. In the Ship-To field, type in the letters '**UTDC**' and press the Tab key on your keyboard.

| Location | Description |
|--------------------|------------------------------------|
| UTDC 205 | UNIVERS, TECH, DEV CTR 205 |
| JTDC 301 | SPONSORED PROJECTS ACCOL |
| UTDC 414 | UNIVERSITY ARCHIVES |
| UTDC 4516 HENRY ST | QATAR FINANCE - PGH |
| JTDC, Ste 414 | Institutional Research and Analysi |
| | |
| | |
| | |
| | |
| | |
| | |
| | |
| | |

9. A reduced list of values shows with just the ship-to locations **starting with** "UTDC". Notice that entering "UTDC" and pressing Tab entered the wildcard at the end of the word. These are abbreviated addresses, but the full ship-to address will print on the PO. Select **UTDC**, **Ste 414**. *Note:* There are two special Ship-Tos; None and Notes.

- 10. The Bill-TO ACCOUNTS PAYABLE field defaults to Accounts Payable. For the majority of purchase orders this does not change. The Accounts Payable address prints on the PO so the supplier knows where to send the invoice. Press the Tab key on your keyboard.
- 11. The **Currency USD** field either defaults to the functional currency of the ledger (USA USD) or to the payment currency a supplier has requested. If the supplier has requested a special payment currency, it is entered with the supplier information on setup. The field is protected and you cannot type a change directly into the field. However, you can change the payment currency as follows:
 - a. Click on the displays.

| Currency | USD |
|-----------|-------------|
| Rate Type | |
| Rate Date | 14-JUN-2017 |
| Rate | |

b. Click on the List of Values in the currency field.

| ind <mark>%</mark> | | |
|--------------------|-------------------|---|
| Currency | Name | 2 |
| AUD | Australian Dollar | |
| BHD | Bahraini Dinar | |
| BRL | Brazilian Real | 1 |
| CAD | Canadian Dollar | |
| CHF | Swiss Franc | |
| CNY | Yuan Renminbi | |
| COP | Colombian Peso | |
| DKK | Danish Krone | 1 |
| EUR | Euro | |
| GBP | Pound Sterling | |
| HKD | Hong Kong Dollar | |
| INR | Indian Rupee | |
| JPY | Yen | |

- c. You can only select from the currencies enabled in the Oracle system. Select GBP Pound Sterling.
- d. The Rate Type is "Corporate". Select this value either from the List of Values or by using the shortcut method for the field. The Rate Date must either be the current date or a date in the past. No rates will have been assigned yet for future dates.

| Rate Type Corporate Rate Date 02-JUL-2018 | | Currency | GBP |
|--|-----------------------|----------|-------------|
| Rate Date 02-JUL-2018 | Rate Date 02-JUL-2018 | ate Type | Corporate |
| | | ate Date | 02-JUL-2018 |
| Rate | Rate Rate | Rate | |

e. The system automatically populates the rate. *Note:* In class it is necessary to back the Rate Date up a day because the Oracle instance being used is populated with the previous day's data and rates.

| Currency | GBP |
|-----------|-------------|
| Rate Type | Corporate |
| Rate Date | 01-JUL-2018 |
| Rate | 1.32029 |

- f. Now the rate field is populated. Let's change the currency back to USD.
- 12. The Buyer TAYLOR, MARY K defaults to your name. The name should change only if a different buyer makes changes to the PO and sends it for approval.
- 13. The Status Incomplete field is gray. It will default with the appropriate value once the purchase order is sent for approval.
- 14. The Total **0.00** field will be systematically populated as you add lines to the purchase order.

15. The Description

field is optional. This description is for your internal use only and does not print on the purchase order. This is where you indicate the business justification for this purchase. As a general rule, business justifications for any purchase should answer our 5 Ws (who, what, when, where, why) and how the purchase relates to university business. Type 'NEW FURNITURE FOR MAIN CONFERENCE ROOM IN STE 414.' into the description field.

to the right of the Total. Click in 16. The last field on the Header to be entered is the small field the field. A decision box opens.

| OPO Headers (2020) | | erenenenen. | | | × |
|--------------------|----------|-------------|--------|-------|------|
| Bid Checklist Requ | ired 🚺 🗖 | | | | |
| PMWeb Commitmer | it ld | | | | |
| | | QK | Cancel | Clear | Help |

- a. The first field, Bid Checklist Required, is used to indicate whether the purchase order requires a Purchasing Checklist and Bid Summary form to be completed. In the Introduction to Purchasing training class, you were taught the criteria to determine whether a checklist is required. Remember that you can use the **Buyer's Action Matrix** to determine the documentation requirements for your purchase. For training purposes, let's assume the answer is 'YES'.
 - 1. A completed Purchasing Checklist and Bid Summary Form is required for purchases \$5,001 USD or greater made with a non-preferred supplier. All purchases of \$150,000 USD or greater, regardless of the source of funds or type of supplier utilized, are required to complete this form per the university **Procurement Manual**
- b. The second field, **PMWeb Commitment Id**, is not used by the majority of campus. This is only for any departments that utilize PMWeb. We will not enter anything in this field.
- 17. At this point, you can save the purchase order. The system will generate a purchase order number in the PO field.

Purchase Order Attachments

Attaching the required Purchasing Checklist and Bid Summary Form (Bid Checklist) to purchase orders in Oracle eliminates the need for a separate submission to Procurement Services, allows approvers to view the attachment in their workflow notification to ensure the necessary steps have been completed prior to the purchase, and helps alleviate potential audit concerns with missing Bid Checklists.

1. While in any field in the PO header section, click the **Attachments paper clip icon** in the toolbar.

a. **Note:** The PO must be saved before an attachment can be added. If the PO has not yet been saved, a decision box will open and ask if you want to commit (save) the record. Click **Yes**.

2. The Attachments form will open. This is where the Bid Checklist can be uploaded as an attachment on the PO.

| Aain | Source | | | | |

| | | | | |
| | | Find | QK | Cancel |

- a. **Note**: The **Miscellaneous** option can be used for any other type of supporting documentation, such as any necessary gift processing forms, quotes, etc.
- b. The **Title** and **Description** fields are both optional. The title is what the approver(s) will see in the workflow notifications as the link to the attachment. If a title is not entered, the file name or URL will show as the document name. The description could be used to provide a brief description of the attachment.
- 4. In the Title field, enter "TRI-STATE CHECKLIST"

5. Click on the **Source** tab. A Decision Box will pop up asking if the file has been uploaded successfully. **Do not click on either Yes or No yet.**

| ain | Source | | | | |

| | | | | |

We are finished with the Header section of the PO. Let's move on to the lines.

Purchase Order (PO) Lines

| Lines | Price Refer | rence Reference Docu | iments | More | Agreement | | | | | |
|-------|-------------|----------------------|--------|----------|-------------|-----|----------|-------|----------|---|
| Num | Туре | ltem | Rev | Category | Description | UOM | Quantity | Price | Promised | |
| | | | | | | | | | | E |

The Lines contain the detail information about what is being purchased. This section also contains "tabbed regions". Each tab holds different information applicable to the PO. However, the Lines tab is the only one that contains *required* fields.

PO Line 1

1. Click into the Num field on the first line.

| Lines Price Reference Reference Documents More | Agreement |
|--|---|
| | |
| Num Type Item Rev Category | Description UOM Quantity Price Promised |

2. The system automatically numbers each line as they are entered. Notice now some of the fields have turned to yellow. Click into the Type field then click on the List of Values icon.

| Num Type Ite | m | Rev | Category | Descript |
|-------------------------------|-----------------------|-----|----------------------------|----------------------|
| GOODS - QU | | | ļ | Ļ |
| ine Types - Cristian Cristian | | | | Hereiter (|
| | | | | |
| | | | | |
| - F | | | | |
| Find % | | | | |
| | | ~ | | |
| Find % | Value Basis | | Purchase Basis | Desc |
| | Value Basis Amount | | Purchase Basis Services | |
| Line Type | | | | Desc DOLL QUAN |
| Line Type GOODS - AMOUNT | Amount | | Services | DOLI |

- 3. There are four choices for PO Line Type. Each type determines what will be entered into the Quantity and Unit Price Field and what the default will be for the Unit of Measure (UOM) field. (Remember, you can use the Edit icon on the Oracle toolbar to view the total contents of a field.)
 - a. GOODS AMOUNT Ordering goods based on a total dollar amount. For example, buying \$5,000 worth of office supplies from Office Depot over a 3 month period. Also useful when 'splitting' a purchase between multiple accounts strings by varying amounts (e.g. 18/35/47 or 63/73). For example, splitting the cost of a piece of equipment shared by multiple departments.

| UOM | Quantity | Unit Price | Total |
|---------------------|----------|------------|---------|
| Currency used above | 5000 | \$1 | \$5,000 |

b. GOODS – QUANTITY (default line type) – Buying goods based on specific quantity. For example, 5 cases of paper from Office Depot. If a lesser quantity is received, buyer can easily receive to ensure only quantity received is paid for.

| UOM | Quantity | Unit Price | Total |
|------|----------|------------|-------|
| Each | 5 | \$20 | \$100 |

c. SERVICES - AMOUNT - Ordering service based on a total dollar amount. Best used for recurring invoices (draw down POs) where multiple invoices are expected in varying amounts. For example, contracting computer maintenance for \$100,000 billed throughout the year. Also useful in cases where only one invoice is expected but the amount needs to be 'split' between multiple account strings.

| UOM | Quantity | Unit Price | Total |
|---------------------|----------|------------|-----------|
| Currency used above | 100000 | \$1 | \$100,000 |

 SERVICES – QUANTITY – Ordering service based on a defined quantity, UOM and Price such as Rate/Hour. For example, Xerox repairman @ \$20/Hr. for 3 hours. Also useful when multiple invoices are expected that will be identical each month. For example computer maintenance costing \$60,000/yr. that will be billed at \$5,000 each month for 12 months. This would allow the buyer to receive a quantity of (1) each month.

| UOM | Quantity | Unit Price | Total |
|-------|----------|------------|-------|
| *Each | 3 | \$20 | \$60 |

*For the example above, the UOM can be changed to Hour.

4. The purchase order is for one conference table. Select **GOODS – QUANTITY** because we are buying goods (table) based on a specific quantity (one).

Category.

6. Click or Tab into the 📑 field. The category is a general description of the goods or services being purchased. You should select the category that bests fits the purchase. The category for this PO line is **FURNITURE & FURNISHINGS**. Use a shortcut or the List of Values to select this category. This field is case sensitive, so use uppercase if you choose the shortcut.

Description

field is yellow which means it is required. Enter

7. Notice that the Description the description as follows: "14FT RACETRACK VENEER CONFERENCE TABLE WITH HALF DRUM **BASE IN A LIGHT CHERRY FINISH"**. This description tells the supplier what product or service you want. Give as much information to the supplier as you can so the supplier knows exactly what you want. If you have a model number or supplier catalog number, include it here.

UOM

8. The Unit of Measure (UOM) **EACH** field defaulted to EACH because the Line Type selected is GOODS – QUANTITY.

| | Quantity |
|----|----------|
| tv | 1 |

9. Enter a quantity of one into the Quantity **_____**field.

Price

10. Type **6000** into the Price ⁶⁰⁰⁰ field. Do not enter a dollar sign (\$) or commas. In addition, the price must be in the currency selected at the header level. If we had selected the Pound Sterling, the price entered would have to be in pound sterling.

Need-By

11. If you scroll to the right you will see the fields. These are optional. If you were negotiating with the supplier and were given a "Promised" delivery date you could enter it into the Promised field. If you needed the laptop by a specific date you could enter it into the Need-By field.

Promised

12. The remaining fields in this tab are not used by Carnegie Mellon.

| Lines | Price Reference | Reference Documents | More | Agreement | | | | | |
|-------|-----------------|---------------------|---------------|--------------------|------|----------|-------|----------|--------|
| | | | | | | | | | |
| Num | ce Item | Rev Ca | ategory | Description | UOM | Quantity | Price | Promised | [] |
| 1 | ODS - QU, | FU | IRNITURE & FL | 14ft RACETRACK VEI | EACH | 1 | 6000 | | I DA I |

For this example, we have completed the header and a line of the purchase order. Essentially, we have selected the supplier (header) and selected "what" we want to purchase, namely, the New Furniture for main conference room in Ste 414.

Let's move on to Shipments.

Shipments (PO Line 1)

Shipments tell the supplier where the product should be shipped.

Shipments

1. Click on the

button at the bottom of the form to open the **Shipments** form.

| <mark>O</mark> Shipments - [Nev | w] | | | | | | | i≚⊼X Ø |
|---------------------------------|-------|-------------|------|----------|--------------------|----------------|---------------------|-----------|
| Shipments | More | Status | | | | | | M |
| | | | | | | | Onininal | |
| Num O | | | | Quantity | Promised Date | Need-By | Original Promise | |
| | M UT | DC, Ste 414 | EACH | 1 | | | | |
| | | | | | | | | - 3 |
| | | | | | | | | |
| | | | | | | | | - |
| | | | | | | | D | |
| | | | | | | | | |
| Line Num 1 | lt It | tem | | 14ft | RACETRACK VEN | EER CONFERENCI | E TABLE W/ H/ | ALF DI |
| | | | | | | | | |
| | | | | | Receiving Controls | s | Distributions | |
| | | | | | | | | |

Num

2. The Shipment Num field is systematically populated sequentially starting with the number '1'.

3. The Org field is gray indicating that it is protected by the system and cannot be changed.

4. The Ship-To UTDC, Ste 414 field defaults from the Ship-To on the PO Header. The Ship-To can be changed; however, this is a simple purchase order with only one shipment.

5. The UOM Field defaults from the Lines section of the PO and cannot be changed.

6. The **field** defaults from the Lines section of the PO and can be changed. Do not change it for this example.

| | | Promised Date | Need-By | |
|----|--|---------------|-----------------|------------------|
| 7 | The optional Promised Date and Need-by dates | | | default from the |
| 7. | PO Lines section but can be modified here. Leave | | r this example. | deladit from the |

That completes the Shipments data for this PO. There is one more piece of information that we need to enter on this PO, which is the Distribution(s).

Distributions (PO Line 1)

1.

2.

Distributions indicate "who" will be charged for this purchase. You will enter the General Ledger (GL) or Grants Management (GM) account that will be charged for the purchase in the **Distributions** form.

| Click on the Distributions bu | tton. | | |
|---|--|------------------------|--------------------|
| O Distributions - [New] | | | ≚ ⊼ X |
| | | | |
| Destination More Project | | | |
| Num Type Requester | Deliver-ToSubinv | ventory Quantity | P[] |
| 1 Expense | | 1 | |
| | | | |
| | | | |

| When the Distributions form opens, yo | | ination tab. The | stination tab is |
| used to enter a GL account string. Notic tab later in the class to enter a Grants ac | | tab. We wi | ll use the Project |
| The field and the changed. | field are systema | itically populated an | d should not be |
| The Requester field | s optional. Let's enter | r Walker, Kylie for th | is exercise. Wher |

3. The Requester field is optional. Let's enter Walker, Kylie for this exercise. When the requestor is entered, the 'Deliver-To' field will automatically be populated with their campus address in the system, but can be changed if needed.

| | | Quantity | |
|----|--------------------|----------|--|
| 4. | The Quantity field | 1 | value comes from the quantity entered in the Shipments form. |

Doesn't this look familiar? It is the Accounting Flexfield but it is called the "Charge Account" in the PO module. Using the skills you learned in Oracle 101, enter the following account string:
 87200.000001.520.000.570010.01

Note: The object code 87200, Capital Furniture was selected because the purchase amount is \$6,000 which is over the capital threshold of \$5,000.

7. Click on the button.

| Destination | More F | Project | | |
|-------------|----------|--------------------------------|----------------------------|--------|
| | | | | Rŧ |
| Num | Quantity | PO Charge Account | Destination Charge Account | R: [] |
| | 1 | 87200.000001.520.000.570010.01 | | |

- 8. Scroll all the way to the right to see one more required field in the Destinations tab.
- 9. The GL Date defaults to the current date. This date must always be within an open period. Do not change the date for this exercise.

| GL Date | |
|-------------|--|
| 02-JUL-2018 | |

- 10. This completes the Distributions. Close the **Distributions** and **Shipments** forms by clicking on the X at the upper right corner of each form.
- 11. Save your work.

PO Line 2

1. Let's complete **Line 2** of this PO, place your cursor into the next available line in the Lines section of the Purchase Order.

- System automatically sequences the line numbers. Type defaults to GOODS QUANTITY. Accept the default. We are selecting this type because we are purchasing goods (chairs) and a specific quantity (15).
 Category
- 3. The category is **FURNITURE & FURNISHINGS**. Remember this field is case sensitive.

Description

4. In the Description field ______ type <u>'MESH BACK TASK CHAIR WITH MID-BACK IN</u>

BLACK MESH'. Remember, you can use the Edit *effective* icon to help you type this into the field.

| IESH BACK TASK CHAIR WITH MID-BACK IN BLACK MESH | <u> </u> |
|--|----------|
| | |
| | |

5. **Quantity** is 15 and **Price** is \$110 each.

| 2 GOODS - QU | FURNITURE & | FI MESH BACK TASK C | EACH 15 | 110 | |
|--|-------------|---------------------|---------|--------------|--|
| | | | | | |
| <i>Note:</i> The system keeps a running total in | n the Total | 7,650.00 | | field in the | |
| header area. | | | | | |

Shipments (PO Line 2)

6. Click on the Shipments button. The Ship-To defaults from the Header and the Quantity defaults from the lines.

| CM UTDC, | Ste 414 EACH 15 | | | |
|----------|-----------------|---|---|---|
| | | | - | |
| | | | | |
| | | | | |
| | | | | |
| (4) | | I | | D |

7. Accept the defaults. The chairs are going to UTDC, Suite 414. Now complete the Distributions, that is, what account will be charged.

Distributions (PO Line 2)
8. Click on the Distributions button.

9. The next distribution will be to a Project, Task, and Award (PTA). Click on the

10. The Project tab opens with the first row number highlighted in yellow and the cursor in the project field. Type **28408** into this field and press the Tab key on your keyboard.

tab.

| | | | | | Expenditure | |
|-----|---------|------|-------|------|-------------|----|
| Num | Project | Task | Award | Туре | Org | Da |
| 1 | | | | | | |

11. Once a Project is entered, other required fields turn yellow. Type Task number **1** into the

| | Task 1 field. Press the Tab Key on your keyboard. |
|-----|---|
| 12. | Award Type the Award number 5004620 into the source field. Press the Tab key on your keyboard. |
| 13. | Type Image: Im |
| | Note: If you recall from Chart of Accounts, the Expenditure Type in Grants is typically same as the name of the Object Code in GL, The object code we used for the GL account string is 86200. The name of this object code is NON-CAPITAL FURNITURE. |
| 14. | Select INSTITUTIONAL RESEARCH AND ANALYSIS for the organization is used, not the value. In Grants, the name of |
| 15. | The last required field is the |
| 16. | Save your work. |

17. Return to the Destination tab. Scroll to the right to view the PO Charge Account.

| Destination | More | Project | | | |
|------------------|-------|-------------|--------------|-----------------|--------------------------------|
| | | | | | |
| Num | De | liver-To | Subinventory | Quantity | PO Charge Account |
| 1 ⁽ L | E UTI | DC, Ste 414 | | <mark>15</mark> | 85313.061000.005.239.135300.01 |

- 18. The system automatically generates the equivalent GL account string for the PTA. But, notice that the field is gray which means it is protected and you cannot make changes. Any changes must be made to the PTA.
- 19. Close the **Distributions** and **Shipments** forms by click on the At the top right hand corner.

Summary

You have finished entering data for Purchase Order Exercise #1. You selected Tri-State Office Furniture as the supplier in the header.

PO Line 1 contained the conference table (what) which was to be shipped to UTDC, Suite 414 (where) and charged to the Institutional Research (who) GL account string with a Capital Furniture (87200) object code.

PO Line 2 was for the 15 chairs (what) to accompany the table. They were also to be shipped to UTDC Suite 414 (where) and charged to the Institutional Research (who) PTA account string with a Non-Capital Furniture type category.

PO Workflow and Approval

There is an approval process in Oracle associated with purchase orders. All purchase orders must be approved before they can be sent to a supplier.

Purchase Orders (PO) enter a workflow when submitted for approval in Oracle. The workflow evaluates the information entered on the PO and determines if the PO goes to your supervisor and/or to one of the special approval checkpoints.

In supervisory approval, the system will direct the PO to the submitters' Oracle supervisor for approval when necessary. If that supervisor does not have sufficient rights to approve, the systems will follow the submitters' supervisor hierarchy until it finds an approver with appropriate rights to approve the PO.

Each workflow checkpoint has designated approvers who can approve the PO. Some checkpoints are "final approvals" meaning the PO does not also have to go through supervisory approval. If a workflow checkpoint does not have final approval, the PO may then also require supervisory approval if it is above the amount the buyer has the rights to approve.

Note: See the Appendix for more information regarding the Purchasing Workflow.

To submit a PO for approval:

1. Click on the Approve... button.

| Purchase Orde | er Summary to P | Purchase Orders - 40152 | 9 | | | | 0000 | 000000000 | | | ()): 골 치 × |

| □ E- <u>M</u> ail | E-Mail Address | | | |
| | | | | |
| | | OK | | Cancel (<u>B</u>) |

3. CMU utilizes encumbrance accounting.

| AF | O creates an obligation to pay referred to as an encumbrance. These entries |
|----|---|
| | e sent to both the General Ledger (GL) and Grants Management (GM). An |
| | cumbrance is simply money set aside for planned purchases. Reports can be |
| | n in the system showing money you have spent and money you are planning to end (encumbrances). |
| зр | |
| | Encumbrance |
| | Reserve |

- 4. Check the box next to Reserve in the Encumbrance region
- 5. The system automatically checks the Submit for Approval selection in the Approval region.

Use GL Override

6. The Forward function allows you to forward the PO to another person. Click on the checkbox next to forward. The Forward From and the Forward To fields systematically populate.

| Forward From | TAYLOR, MARY K |
|---------------|-------------------|
| Approval Path | |
| Forward To | PERKINS, AMANDA K |

- 7. The Forward From field cannot be changed. The Forward To field is populated with your Oracle supervisor, but can be changed. Perhaps you are filling in for another buyer who is on vacation. You may want to forward the PO to that buyer's supervisor.
- 8. Uncheck the Forward function; we are not forwarding this PO.
- 9. Transmission Methods are not used at CMU. We will talk about how to get the PO to the supplier later in the class.

| | ⊂Transmission Methods □ Print □ Fax □ E-Mail | FAX Number E-Mail Address | C XML C EDI |
|-----|---|------------------------------|---------------------------------------|
| 10. | Click on | 0K | button to submit the PO for approval. |

11. The following Decision box will appear.

| <mark>O</mark> Decis | | | | > |
|----------------------|----------------|---------------|---------|----------------------|
| 1 | Your Budgetary | Control actio | on comp | oleted successfully. |
| | | Ōĸ | | View Results |
| 2. Click on | | button. | | |

13. This Purchase Order will stop at the Procurement Services Checkpoint. The instructor will approve all purchase orders in the PS Checkpoint before class moves forward. Any purchase order that requires a Purchasing Checklist and Bid Summary form will also route through the Procurement Services checkpoint prior to moving through the supervisory approval or any additional checkpoints.

Purchase Order Inquiry

When a purchase order (PO) is "in process" of being approved, you cannot open the PO, but you can check on the PO by using the Purchase Order Inquiry function.

1. From the module Navigator menu, select **Purchase Order Summary** under the Purchase Orders menu branch

2. The Find Purchase Orders form opens.

| | | | | | Ľ |
|--|-------------------------|-----------------|-----------|---|---|
| | CM OPERATING UNIT (| | | | |
| | | | | | |
| | | | | | |
| | | | | | |

6. As you can see the Open button is grayed out

. Move the scrollbar to the right

Approval Status

until you see In Process. As mentioned earlier, you cannot open a PO with an Approval Status of "In Process". However, you can check to see where the PO is in that process.

Qpen.

7. Under Inquire on the Oracle menu, select View Action History.

8. The form that opens lists the steps the PO has gone through so far.

| | | Rev | | | |
|-----|-------------------|----------|-----------------|-------------------|------------------------|
| Seq | Date | <u> </u> | Action | Performed By | Note |
| 4 | 03-JUL-2018 12:38 | | No action taken | MCADOO, JARROD W. | ***No Action on Approv |
| 3 | 03-JUL-2018 12:38 | 0 | Forward | TAYLOR, MARY K | |
| 2 | 03-JUL-2018 12:38 | 0 | Submit | TAYLOR, MARY K | |
| 1 | 03-JUL-2018 12:38 | 0 | Reserve | TAYLOR, MARY K | |
| | | ┝ | | | |
| | | | | | |
| | | | | | |
| | | | | | |

- a. Seq 1 Checking of the Reserve box on the Approval Document.
- b. Seq 2 Clicking on the button to submit the PO for approval.
- c. Seq 3 Forward means the PO has been forwarded to the workflow which channels it to the appropriate approvers.
- d. Seq 4 Has "No action taken" in the Action field. This indicates that the PO is waiting in the Procurement Services queue for approval. Once someone with access to the checkpoint approves the PO, that name will appear in the Performed By field and the PO will move to the supervisory approval hierarchy.
- 9. Close the form by clicking on the X at the top right corner.
- 10. Back at the **Purchase Order Headers**, you can click on the Lines button to view the lines entered on this PO.

PO is Rejected

| Worklist | | | | |
|-------------|----------------|--------------------------------------|------------------------------|-------|
| | | | Full List | : (1) |
| From | Type 🔺 | Subject | Sent | Due |
| WEAVER, DEA | NNE CMU PO App | roval Standard Purchase Order 359180 | has been Rejected 11-Mar-201 | 6 |

It is important that you take action on a PO that is rejected or contains a request for more information. **Do not leave the PO in a rejected state.**

For example, you may call your approver and verbally answer the request for more information; however, the PO will not be approved until you send it back to the approver.

If the PO is rejected, contact the approver to find out why? If the approver wants something changed you can modify the PO as we will do later in this course. Don't create a new purchase order. If the approver doesn't want the PO at all, then delete the PO.

Printing Purchase Orders

Once a purchase order is approved, the next step would be to forward it to the supplier. This will require printing the purchase order report. The report creates a PDF, which will enable you to save your PO and send it electronically to the supplier or print and mail it to the supplier.

1. Navigate to Reports>Run

2. Submit a New Request form opens.

3. The system defaults to a single request. Click on the ______button. The **Submit** Request form opens.

| Submit Request 2000 Run this Request | | C 3666666666666666666666666666666666666 |

| | | |
| Print to | | Delivery Opts |
| Help (<u>C</u>) | Submit | Cancel |

4. Click into the yellow name field to select a report. The report you want is **"Printed Purchase Order Report (Portrait) Approved Only"**. Again this is a reminder that only approved purchase orders can be printed. Once the report is selected a Parameters form will appear specific to this report.

| O Parameters | | | | | × |
|-----------------------------|---------|------------|--------|-------|------|
| Print Selection | All | | | | |
| Buyer | <u></u> | | - - | | |

| e e | | | | | |

- 5. Populate the following parameters:
 - a. Print Selection: Select the value "All"
 - b. Purchase Order Numbers From/To: Enter your purchase order number(s) in the From and To fields. You can do a range of Purchase Orders or a single one.
 - i. If printing a single purchase order, be sure to put the number in both the To and From fields. If you enter a number in the 'From' field, the 'To' field will automatically populate with the same number.
 - ii. If selecting a range of purchase order numbers, be sure to enter your name in the Buyer field so only your purchase orders print.

6. Click on the \bigcirc button.

Carnegie Mellon's Purchase Order Terms and Conditions (including Shipping and Invoice Instructions) are incorporated herein by reference as if fully set forth. A copy of Carnegie Mellon's Purchase Order Terms and Conditions (including Shipping and Invoice Instructions) can be obtained from Carnegie Mellon's website, at http://www.cmu.edu/finance/files/PO-terms.pdf, or from Carnegie Mellon's Procurement Services group by contacting them at Procurement Services, 5000 Forbes Avenue Pittsburgh, PA 15213 or at procurement-inbox@andrew.cmu.edu.

6. Opening as a PDF allows you to print or save the purchase order. Then you can either fax or e-mail the PO to your supplier.

Entering Receipts

The system automatically defaults all purchase orders to a three-way match. This means when an invoice is received from the supplier and entered into the system by Accounts Payable (AP), it must be matched to a purchase order and a receipt in order for payment to be made. A **receipt** acknowledges that you have received the goods or services represented by the invoice. The process is depicted below:

In this "best case" example, a purchase order was created for 10 computers. Ten computers were received. The invoice included charges for 10 computers. Once the match is made the payment process can begin.

System alerts are sent to the buyer (creator of PO) if an invoice is entered but can't be matched at 100%. **Failing to enter receipts in a timely manner will hold payment to the supplier.**

Let's start by entering a receipt for the new furniture from Tri-State Office Furniture on our first purchase order.

Receiving, Exercise #2

You have been notified by a staff member that the conference table and 6 of the chairs you ordered have arrived. The other 9 chairs are on back-order and should arrive in a week. You decided to go ahead and receive against the purchase order.

1. Navigate to Receiving>Receipts

2. An **Organizations** form opens. The purchase order was entered into the USA Ledger so highlight the CM Inventory Organization.

3. Click on the **Let** button. The **Find Expected Receipts** form opens.

| Find Expected Receipts (|) processes and the second processes are also as the second process (\boldsymbol{x} | я× |

| Item Date Ra | nges Shipments Destination | |
| ltem, R Catego Descriptic Supplier Ite | | |
| | Unordered Clear Find | |

- Typically, you will be entering receipts for a specific purchase order. Enter your Purchase Order number from Exercise #1 (Tri-State Office Furniture) in the Purchase Order field and click on the Find button.
- 5. The **Receipt Header** form displays with summary information for the receipt. You have the option to enter additional information in the fields provided in the Header but there are no *required* fields here.

| Receipt | | Receipt Date | 02-JUL-2018 17:11 |
|-----------------|----------------------------|-----------------|-------------------|
| Shipment | | Shipped Date | |
| Packing Slip | | Waybill/Airbill | |
| Freight Carrier | | Bill of Lading | |
| Containers | | Received By | TAYLOR, MARY K |
| Supplier | TRI-STATE OFFICE FURNITURE | | |
| Comments | | | [|

- 6. For now, close the Receipt Header by clicking on the 🔀 at the upper right hand corner.
- 7. The **Receipts** form now shows with all shipments that meet the search criteria.

| Quantity | UUIVI | Quality | 001 | Oper | ating onit | Order Type | Number | |
| | EACH | Quantity | | providence | DPERATING UNIT (| and the second | 401529 | |

- 9. This tab lists the PO #, PO Line and Shipment. This tab becomes important when the purchase order contains multiple lines/shipments/distributions to help ensure you are creating the receipt for the appropriate line.
- 10. On the bottom of the form is information about the purchase such as the PO#, Supplier, Due Date and so on.
- 11. Select the Line you want to create a receipt for by clicking into the tiny white box next to the line.

Quantity

1. If the box is not checked a receipt will not be created.

12. The Quantity field displays the quantity due for shipment. However, the quantity can be changed as necessary, such as in the case of a partial receipt (e.g. 10 items were ordered, but

only 5 received so far). Once this line is fully received the quantity will be zero. For this example, we will not be changing the quantity.

13. Click on the Lines tab.

15. The Destination field at the bottom of the form is now populated.

| c |)perating Unit | CM OPERATING UNIT ORGANIZATION |
|------------|----------------|--------------------------------|
| | Supplier | TRI-STATE OFFICE FURNITURE INC |

| Comments | | | 1 |

- 20. When the header reappears you will see the system has generated a receipt number.
- 21. Return to the Navigator menu (F4).

Wait for the instructor to continue.

A week has passed. The table has been set up in the main conference room. You discovered that there is a large scratch on one of the legs. You contacted Tri-State Office Furniture and the manager offered a \$500 discount in lieu of replacing the table. You accepted it. Hopefully, people won't spend their time in meetings looking at the table legs. In addition, the other 9 chairs have arrived.

You need to modify the purchase order to reflect the new price on the table and you need to receive the additional 9 chairs.

In order to change the price on the PO, we need to undo the receipt which is referred to as a 'return' in Oracle. In this case, we are not actually physically returning the table.

Before you can do a return in Oracle, you must verify that the item has not been matched to an invoice by Accounts Payable.

Modifying a Purchase Order

1. Navigate to Purchase Orders>Purchase Order Summary

2. The Find Purchase Orders form opens

| | | **** |
|--|-----------|---------------------------------|
| Number | Туре | |
| Release | Currency | |
| Supplier | Site | |
| Ship-To Org | | Show External Locations |

| (I) | | 1 | | | 1 | |
| | | | | | | |

6. Click on the little yellow folder at the top left.

| Open Folder (1999) | | | 000000000 | | × |
|--------------------|------|------------|-----------|-------|---|
| | | | | | |
| Find PO STATISTIC | S% | | | | |
| Name | | _ | _ | Owner | |
| PO STATISTICS | | | | SELIG | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| 0 | | | | | D |
| | Eind | <u>о</u> к | Cancel | | |

7. Simply click the button to open the **PO STATISTICS** folder. Folders allow you to look at data in different formats.

| ics | | | | | |
|------|----------|----------|--|--------------|--|
| Line | Shipment | Amount | Qty Due | Qty Received | Qty Billed |
| 1 | 1 | 6,000.00 | 0 | 1 | 0 |
| 2 | 1 | 1,650.00 | 9 | 6 | ol |
| | | | Line Shipment Amount Line Shipment Amount 1 1 6,000.00 | | Line Shipment Amount Qty Due Qty Received 1 1 6,000.00 0 1 |

- 8. The two columns we need to verify are Qty Received and Qty Billed for Line 1.
 - a. Qty billed is zero so that means no invoice has been processed by Accounts Payable (AP). If there was an amount billed other than zero, it may be necessary to contact AP to have them temporarily "unbill" the invoice. Wait for AP to verify this is complete before continuing.
 - b. Qty Received shows a '1', so we will have to do a return before we can modify the price on the conference table. Again we are not actually returning the table to the supplier. We need to undo the receipt.
- 9. Press F4 on your keyboard to return to the Navigator menu.

Creating a Return

1. Navigate to Receiving>Returns

2. On the **Find Returns** form enter the Tri-State Office Furniture PO number from in the **Purchase Order** field.

10. Only two choices appear. Always select **Supplier**.

11. Save your work

12. F4 to return to the Navigator menu. That completes the return. Now you must change the price on the Purchase Order.

Changing an Approved PO

1. Navigate to Purchase Orders>Purchase Order Summary

2. The Find Purchase Orders form opens

| Find Purchase Orders | | | | ± 7 | n × |

6. When the purchase order opens click into the first line.

| Lines | Price Referer | nce Reference Docur | ments | More | Agreement | | | | | |
|-------|---------------|---------------------|-------|----------------|-------------------|------|----------|-------|----------|-----|
| | | | | | | | | | | |
| Num T | ype It | iem | Rev | Category | Description | UOM | Quantity | Price | Promised | |
| 1 0 | OODS - QU, | | | FURNITURE & FL | 14FT RACETRACK VE | EACH | 1 | 6000 | | CA. |

- 7. Some of the fields turn yellow but the price field is grayed out. You cannot change the price until you unreserve the funds. **Be sure that you cursor is on the line that you want to modify.**
 - a. **Note:** Oracle will allow you to change the price without unreserving the funds. This will lead to issues with the encumbered amount on the PO. ALWAYS unreserve the line(s) that require modification before moving forward.
- 8. On the Oracle menu under Tools, select Unreserve.

9. An Unreserve box will display with today's date.

| OUnreserve | 000000000000000000000000000000000000000 | 000000000000000000000000000000000000000 | × |

| | | GL Date to Unreserve | |
| | | Date to Offeserve | |
| | | | 3 |
| | QK | Cancel | |
| | | | |
| | | | |

10. Click on the **OK** button to accept today's date. Always use today's date. A Decision box will show confirming the action.

- 11. Click **OK** to close the box.
- 12. The Status has now changed to Status Requires Reapproval
- 13. Click into the price field and change the price from 6000 to **5500**. The field is now yellow and can be modified. Click into the second row.

| Lines | Price Refere | ence Reference | e Documents | More | Agreement | | | | | |
|-------|--------------|----------------|-------------|----------------|-------------------|------|----------|-------|----------|-----|
| | | | | | | | | | | |
| Num | Түре | ltem | Rev | Category | Description | UOM | Quantity | Price | Promised | [] |
| 1 | GOODS - QU | | | FURNITURE & FL | 14FT RACETRACK VE | EACH | 1 | 5500 | | [A] |
| 2 | GOODS - QU | | | FURNITURE & FL | MESH BACK TASK C | EACH | 15 | 110 | | |

a. Notice when you click into Line 2, the Price is grayed out. When you Unreserve as shown here you are unreserving funds for just the one selected line. If you needed to change the price on Line 2, you would begin with Step 8 again.

Т

Т

GL Date

14. Go to the **Distributions** form and verify the GL Date is a date in the current period.

GL Date

All transactions, including encumbrances, end up in the General Ledger. The GL date on the distributions must coincide with the open period in the General Ledger. At the beginning of each period, the Business Systems and Services Team opens the period to allow transactions into the General Ledger. At the end of the period, Business Systems and Services Team closes the period after month-end processes are complete and no more transactions can be entered into the GL. A period is equivalent to one calendar month.

When entering a new PO, this GL Date is automatically populated with the current date and is typically not changed. When modifying the PO, the GL Date is not changed systematically. You must manually change the date if the modification is being done in a different period.

For example, if you created and approved a PO on Jul 14, 2016, the GL Date would show.^{14-JUL-2016} Perhaps something occurred that required modification to the PO on Aug 12, 2016. When you modify and unreserve a line, the GL Date will still be Jul 14, 2016 on the **Distributions** form. You must change the GL Date to a date in the current period or you will get the following Error message.

15. Save your work. The following Note box will appear.

16. Click OK to close. The system will populate a revision # in the Rev field.

17. **Submit PO for approval**. The following message will immediately appear.

18. Because we lowered the price of the table from \$6,000 to \$5,500, approval is simply a formality and will automatically be done.

20. Go into Receipts and **create a new receipt for the conference table**.

| C | Receipts (CM) | | | | | | ≚ ⊐ X |
|---|---------------|--------------|----------|-------------------|------------------|----------------------|-------|
| I | Lines | Details | Currency | Order Information | Outside Services | Shipment Information | |

9. A note will appear announcing that a new Purchase Order has been created.

- 11. Click on the OK button.
- 12. The new Purchase Order is opened.

PO Header:

- 1. The Header has been completed.
 - a. Supplier: Solution Beacon LLC
 - b. Site: Seattle
 - c. **Contact:** Alicia Hoekstra
 - d. **Ship-To:** US UTDC FLOOR 2 *Note:* The current naming convention for campus locations is Country (US) Building (UTDC) Floor or Office (FLOOR 2).

e. Buyer: Change the Buyer name to your name.

- f. **Description:** New project management software for Procurement Services and Business Systems and Services Team plus a maintenance agreement.
- g. Bid Checklist Required: 'Yes'.
- h. The Purchasing Checklist and Bud Summary form has also been attached and will copy with the purchase orders. Notice that the paperclip icon has a piece of paper in it.
- 1. Click into the Buyer field. Buyer TAYLOR, MARY K Notice the instructors name is listed because that is who created the PO you copied.
- 2. You should select your name by opening the List of Values.

3. Or by typing in the first few letters of your last name.

4. Then press the Tab key on your keyboard. The name will automatically populate or you will get a reduced list of values from which to make a selection.

Buyer PERKINS, AMANDA K

5. Now view the attached documentation on this purchase order. In this case, a Purchasing Checklist and Bid Summary form has already been attached. To view the attached documentation, click on the paperclip icon while the cursor is anywhere in the PO header.

- a. The preferred Data Type at CMU is **File**. The other Data Types available are:
 - Long Text / Short Text The Long Text option allows for up to 32,000 characters in the text box. The Short Text option allows you to enter up to 4,000 characters in the text box. The only reason you should use either of these fields is if you need to provide backup that contains sensitive information (social security numbers, salary data, etc.) or that your business manager deems

confidential to the department and you don't want to attach the document to the purchase order in Oracle. Use this data type to reference the location of the file on the shared drive. It is important to make sure your approver(s) have access to the location you reference in order to review the backup.

- ii. Web Page You would use this option if the information that you want to include as documentation is located on a webpage. Choosing this option allows you to add a URL in the file or URL field.
 - 1. **Note**: When working in Oracle within the Citrix (virtualized) environment, approvers will not be able to click on a URL in their notification and get to a web page. Access to the web is restricted in Citrix.
- 12. Select a Data Type of **File** and follow the steps on pages 14-16 to attach the additional file.

Purchase Order Practice Exercise #3

Use the PO number that you created during the 'Copy Purchase Order' exercise to complete this practice exercise. If you do not have your 'Copy Purchase Order' number, you can search for it using the Purchase Order Summary function OR you could just begin a new purchase order for this exercise.

Carnegie Mellon has decided to purchase a new software package. Bids were taken and the firm Solution Beacon was chosen to do the implementation. Their estimate is 1,000 hours at \$125/hr. In addition, CMU will be purchasing a maintenance agreement from Solution Beacon for \$1,800 per year. The cost of the implementation will be shared between Procurement Services and the Business Systems and Services Team because the software will be installed in both locations. Even though Procurement Services negotiated the maintenance agreement, the cost will be split between the two departments and will be paid monthly. Solution Beacon will also create a user guide for each department.

PO Header

- 1. The Header information should be as follows (may have already been completed during the 'Copy Purchase Order' exercise).
 - a. Supplier: Solution Beacon LLC
 - b. Site: Seattle
 - c. Contact: Alicia Hoekstra
 - d. Ship-To: US UTDC FLOOR 2 Note: The current naming convention for campus locations is Country (US) Building (UTDC) Floor or Office (FLOOR 2).

Buyer: Make sure your name is showing. e.

- f. Description: New project management software for Procurement Services and Business Systems and Services Team plus a maintenance agreement.
- g. Bid Checklist Required: 'Yes'.
- h. Attach documentation as necessary following steps on Page 14 16.

Num

Purchase Order (PO) Lines

PO Line 1

- 1. The first line will contain the software implementation service provided by Solution Beacon. This is based on the number of hours it will take to complete the implementation.
- Type **SERVICES** - (This type is selected because we are ordering a 1 2. **Type**: SERVICES QUANTITY. service based on a defined quantity (500), UOM (hours) and price (\$125/Hr.).

- 3. **Category:** Professional Services.
- 4. **Description:** Software implementation plus user guides.
- 5. **UOM:** Changed to Hour. Solution Beacon estimates the implementation will take 1,000 hours.
- 6. Quantity: 500 (hours). (will be 1000 in total)
 - a. Since two departments are sharing the cost of the 1000 hours, change the quantity to 500 here. We will add a second line for the remaining 500 hours later.
- 7. **Price: \$**125 per hour.

| Category | Description | UOM | Quantity | Price |
|--------------|-----------------------|------|----------|-------|
| PROFESSIONAL | Software implementati | HOUF | 500 | 125 |

As part of the 1,000 hours of implementation, Solution Beacon will be creating software user guides. A user guide will be shipped to both departments, which are in different locations. Therefore, you need to do two PO lines, both with different shipments.

Shipments (PO Line 1)

Shipments

1. Click on the

button. The **Shipments** form opens.

| Shipments | Mor | e Status | | | | | | |
|-----------|-----|--------------|-----|----------|---------------|---------------|---------------------|-----|
| Num | Ora | Ship-To | ПОМ | Quantity | Promised Date | Need-By | Original Promise | r 1 |
| | CM | US UTDC FLOC | | | | Need-Dy | Tomise | |
| | | | | | | | | |
| | | | | | | | | |
| | - | | | | | | | |
| | | | | | J | | | |
| | | | | | | | | D |
| | | | | | | | | |
| Line Num | 1 | Item | | SO | FTWARE IMPLEM | ENTATION PLUS | USER GUIDES | |

| Editor | 2000000000 |
|--------|------------|
| USUT | DC FLOOR 2 |

2. The Ship-To here is defaulted from the header. Procurement Services.

This is the location for

3. Procurement Services is responsible for half of the purchase. This first **Line**, **Shipment**, and **Distribution** are addressed to that department.

Distributions (PO Line 1)

- 1. Click into the next blank Line row.
- 2. Click the Edit menu at the top left. Hover on the word Duplicate, then click Record Above.

| Duplicate 0 | Record Above |
|-------------|--------------|
| Clear | Eield Above |

This will make a copy of the first line.

Shipments (PO Line 2)

- 1. Click the Shipments button.
- 2. The Ship-to for the second line has to be changed to Financial Systems (the former name of the Business Systems and Services Team.) Click into the Ship-To on the second row. The List of Values icon appears. Click on it.

3. Do you remember what it means when a List of Values appears to be blank? Let's narrow down the search. We know the Business Systems and Services Team is in the UTDC Building. In the

Find field, type %UTDC%. We put the % sign on both sides of the building name to make sure we see the old and the new naming convention.

4. Click on the Eind button. A list of locations for the UTDC building displays.

| Ship-To Locations 2000/2000 | ************************************** |
|-----------------------------|--|
| Find % | |
| Location | Description |
| 108 UTDC | PAYROLL SERVICES |
| 209 UTDC | FINANCIAL OPERATIONS |
| US UTDC FLOOR 2 | PROCUREMENT SERVICES |
| US UTDC FLOOR 5 | FINANCIAL SYSTEMS |
| UTDC 205 | UNIVERS. TECH. DEV CTR 205 |
| UTDC 301 | SPONSORED PROJECTS ACCOUN |
| UTDC 414 | UNIVERSITY ARCHIVES |
| UTDC 4516 HENRY ST | QATAR FINANCE - PGH |
| UTDC, Ste 414 | Institutional Research and Analysis |
| | |
| | |
| | |
| 61 | |
| | |
| Find | OK Cancel |
| - Eura | Tree Tanger |

5. Select the one that has FINANCIAL SYSTEMS in the description.

Distributions (PO Line 2)

1. Click on the

Distributions button.

- 2. Enter the Requester here as **Derek Sommer**.
- 3. If needed, change the Deliver-To field to **US UTDC FLOOR 5**

- 4. Enter the following GL account string: **85313.000001.520.000.540700.01**. This is the Business Systems and Services Team account string.
 - GL Date
- 5. Scroll to the right to verify that the $\frac{103-JUL-2018}{103}$ field contains the **current date**.
- 6. Close the **Distributions** and **Shipments** forms to return to the **Purchase Orders** form.
- 7. Save your work.

PO Line 3

- 1. Line 3 was not yet started on the purchase order we copied, so we need to create the line. This line will cover the maintenance contract.
- Type: Change the field to SERVICES AMOUNT. This type is selected because we are ordering a service (maintenance) based on a dollar amount (\$900). Although the total maintenance contract is \$1,800, it will be paid in monthly increments instead of the full amount at one time. It will also be split between two departments.

With GOODS – AMOUNT or SERVICES – AMOUNT you can create a line that can be used like a Draw-Down PO. The dollar amount becomes the quantity and the Unit price is 1. As you receive the goods or services, you can incrementally draw-down or decrease the balance on the PO. This allows you to create one line for the entire amount such as the \$1,800 instead of twelve lines for \$150 each. The \$150 will be received each month against this one particular line reducing the remaining balance each month. These types are excellent for things like leases. They also work well if you have a budget of \$5,000 over period of time with the same supplier for say office supplies or if you are entering a purchase order based on a quote for a service but won't know the final amount until the service is performed or goods are delivered.

- 3. Category: Professional Services.
- 4. Description: Maintenance agreement.
- 5. **UOM:** Defaults to CURRENCY USED ABOVE because of the line type selected. Accept the default.
- 6. **Quantity:** 900. This is half of the total amount of the maintenance agreement.
- 7. Price: Price automatically defaults to '1' when you select SERVICES -AMOUNT as the Type.

Wait for the instructor to continue.

Now the third and fourth PO lines need Shipments and Distributions. Let's make this interesting. Each Line and Shipment will be the same but the two distributions will be different. One distribution will go to a GL account string and one will go to a Grants account string.

Shipments (PO Line 3)

1. While on Line 3, click on the Shipments button at the bottom of the form. The Shipments form displays.

| Territi dispid | y 5 . | | | | |
|----------------|--------------|---------|--------|------|----------|
| Shipments | More | e S | tatus | | |
| | | | | | |
| | | | | | |
| Num | o Org | Ship-To | 1 | UOM | Quantity |
| 1 | СМ | US UTD | C FLOC | CURR | 900 |
| | | | | | |

2. The Ship-To defaults from the header and the Quantity defaults from the PO line. This is for a maintenance agreement so there is no real shipment. Just accept the defaults.

Distributions (PO Line 3)

- 1. Click on the **Distributions** button. The **Distributions** form displays. Remember that in this exercise two departments (Procurement Services and Business Systems and Services Team) are splitting the cost of the maintenance agreement to two different account strings. We are creating two different Lines in order to split our Distributions.
- 2. Let's enter **Jamie Malta** as the Requester for this distribution. The Deliver-To auto-fills with his campus location.

| Num | Туре | Requester | Deliver-To | Subinventory | Quantity | P [| 1 |
|-----|---------|-----------------|---------------|--------------|----------|-----|---|
| 1 | Expense | MALTA, JAMIE M. | US UTDC FLOOF | | 1800 | | H |
| | | | | | | | - |

3. Scroll to the right to see the PO Charge Account field. Enter the following GL account string.

| PO Charge Account |
|--------------------------------|
| 85313.000001.520.000.540500.01 |

- 4. Scroll to the right to verify the GL date. It should be a date within the current open period.
- 5. Save close distributions and Shipments.

PO Line 4

- 1. From the PO Lines area, start a new line.
- 2. Duplicate the Line 3 by clicking Edit -> Duplicate -> Record Above.

Shipments (PO Line 4)

- 3. Click the Shipment button.
- 4. Accept the defaults, and click the Distribution button.
- 5. Enter **Derek Sommer** as the Requester for the second distribution. The Deliver-To auto-fills with his location but can be updated as needed. Do you remember how to update the Deliver-To field?

| Num | Туре | Requester | Deliver-To | Subinventory | Quantity | F |
|-----|---------|---------------|---------------|--------------|----------|---|
| 1 | Expense | SOMMER, DEREK | US UTDC FLOOF | | 900 | |

Distributions (PO Line 4)

1. The next distribution (for the Business Systems and Services Team) will be to a Project, Task and

tab.

Project.

Award (PTA). Click on the Project

2. The Project tab opens with the second row number highlighted in yellow and the cursor in the Project field. Type **28408** into this field and press the Tab key on your keyboard.

Expenditure

| Num | Project | Task | Award | Туре | Org | Da |
|-----|----------|------|-------|------|-----|----|
| 1 | | | | | | |
| 2 | <u> </u> | | | | | |

3. Once a Project is entered, other required fields turn yellow. Type Task number 1 into the Task

Award

🛄 field. Press the Tab key on your keyboard.

4. Type the Award number **5004620** into the field. Press the Tab key on your keyboard.

5. Next is the **Expenditure** Type in Grants. Select **PROFESSIONAL SERVICES** for the Type.

Note: If you recall from Chart of Accounts, the Expenditure Type in Grants is typically same as the name of the Object Code in GL. The object code we used for the GL account string is 85313. The name of this object code is PROFESSIONAL SERVICES.

- 7. The last required field is the **Click** on the list of values calendar to select the **current date**.

8. Save your work.

9. Return to the Destination tab. Scroll to the right to view the PO Charge Account.

| Destinatio | n More | Project | | | |
|------------|--------|---------------|--------------|-----------------|-------------------------------|
| | | | | | |
| Num | | Deliver-To | Subinventory | Quantity | PO Charge Account |
| 1 | DEREK | US UTDC FLOOF | | Quantity 900 | 85313.061000.005.239.135300.C |
| | DEREN | 03 OTDC FLOOR | | 900 | 65515.001000.005.259.155500.C |

- 10. The system automatically generates the equivalent GL account string for the PTA. But, notice that the field is gray which means it is protected and you cannot make changes. Any changes must be made to the PTA.
- 11. Close the **Shipments** and **Distributions** forms.
- 12. Submit the PO for approval. (Refer to pages 35 37 for help.)
- 13. Return to the Navigator menu, F4.

Summary

You have finished entering data for Purchase Order Exercise #3.

In the header, the supplier selected is Solution Beacon. The first line is for the software implementation (what) which included shipment of manuals to the two departments. You split Shipments between the two departments (where) with each shipment having its own distribution account string (who).

The second line was for the maintenance agreement (what). There is no physical shipment involved so you accepted the default shipment information (where). However, the cost of the maintenance agreement was to be split between the two departments (who) so you had to split the distributions.

Purchase Order Practice Exercise #4

Learn by doing

Your business manager wants to purchase five new Dell XPS 11 2in1 Ultrabook for the department administrators. The Ultrabook's should include the 4th Generation Intel Core i5 Processor, Windows 10, 4GB Memory and 128GB Solid State Drive. The Dell sales representative quoted you a total price of \$5,999.95, (1,199.99 ea.).

Create a new purchase order using the skills you have learned in today's class. GOOD LUCK!

Navigator>Purchase Order>Purchase Orders

PO Header Information -

- 1. PO Type Standard PO
- 2. Supplier DELL MARKETING LP
- 3. Site ATLANTA
- 4. Contact **N/A**
- 5. Ship-To **UC 103 ADMIN**
- 6. Bill-To ACCOUNTS PAYABLE
- 7. Buyer Your Name
- 8. Description DELL ULTRABOOK FOR DEPARTMENT ADMINISTRATORS
- 9. PO Headers Bid Checklist Required? No
 - a. Even though this purchase is above the micro-purchase threshold, a Purchasing Checklist and Bid Summary Form is not required because Dell is a preferred supplier.

✓ Save your work!

- ✓ Close the Distribution form and the Shipments form
- ✓ Write down your PO Number ______
- ✓ **Submit your PO for Approval**,(refer to pages 27 30 for help)
- ✓ Once your PO is approved, you would follow the steps on pages 39 45 to submit the print job to print your approved PO and forward to the supplier. If you would like to practice these steps, you may, but not necessary for this exercise.

Now let's receive on this Dell PO. Our shipment has arrived along with the invoice. Dell only shipped and billed us for **three** of the five Ultrabook's. Go into the receiving menu and receive three Ultrabook's.

Navigator>Receiving>Receipts

- 1. Select the Organization CM Inventory Organization (if needed)
- 2. Enter your PO number in the Purchase Order field, click Find
- 3. Close the Receipt Header form, it's not needed
- 4. Click the check box on the receipt row, and receive the appropriate number of computers
- 5. Verify that the Location field has populated with the requestor information that was entered in the Distribution form

| Lines | Details | Currency | C | Order Information | Outside Services | Shipment Information | on |

5. Close all forms and return to the Navigator (F4).

FCPA Guidance

The Foreign Corrupt Practices Act (FCPA)

Remember, the Foreign Corrupt Practices Act prohibits any prohibits any U.S. person or company (including the university) from the following:

- Direct or indirect bribery to a foreign official to obtain or retain and/or direct business to any person or to secure an improper advantage
- Includes any offer, payment, promise of payment, or authorization of payment of any money, or offer, gift, promise to give or authorization of the giving of anything of value

Please complete the "U.S. Foreign Corrupt Practices Act – An Overview for Employees of Carnegie Mellon University" course available in <u>FocusU</u>.

You may also review the Carnegie Mellon FCPA Guidelines, FAQ's, and training materials on the <u>Office of General Counsel website</u>.

Requesting Access to Create Purchase Orders

Access to the purchase order responsibility can be requested using the Core Access Request Form, available in the <u>Oracle Provisioning System</u>.

For PO entry access, request the **USA POREQ Buyer and Approver** responsibility if you are purchasing for campuses in the United States. If you are creating purchase orders for the Australia or Qatar campuses, request the needed responsibilities, **AUS POREQ Buyer and Approver** and/or **QAR POREQ Buyer and Approver**. The US responsibility cannot be used to make purchases charged to Qatar or Australia charge strings and vice versa.

For supplier and payment inquiry, request the **AP Inquiry** responsibility for the appropriate ledger(s):

- USA AP Inquiry
- AUS AP Inquiry
- QAR AP Inquiry

To request PO approval authority, complete the PO Approval Access Request Form, available in the <u>Oracle Provisioning System</u>.

Complete the Business Email Compromise Training Completion Agreement

• The <u>Business Email Compromise training</u> is required for all Finance Division staff, Accounts Payable (AP) Automation Allies, Administrative Leadership Group (ALG) members, and/or individuals requesting the Oracle PO Req Buyer and Approver responsibility.

APPENDIX

Purchase Order Approval Workflow

Automated **Approval Checkpoints** have been added to the approval workflow in addition to the standard oracle supervisory approval hierarchy.

The following is a description of each workflow checkpoint:

- Bid Check List As soon as a PO is submitted for approval, the first workflow process will check to see if the Bid Check List field is populated. If it is not, the workflow will reject the PO and return it to the buyer.
- Entity The next process will check POs with multiple lines that are charged to more than one entity. Some entities cannot be combined on the same PO including:
 - A U.S. (01) entity with International entities (68-80)
 - The SEI entity (05) and with a U.S. (01) entity with International entities (68-80)

The workflow will reject POs that combine the entities above and return it to the buyer.

If an invalid entity combination is used, the PO is immediately returned to the buyer with a notification that the PO failed the entity check.

- Procurement Services (PS) This workflow process will check for POs that follow the same criteria when the PO requires a bid checklist. If the PO meets these criteria, a notification will be sent to users with the WF PO APPRV PS Responsibility. Users with this responsibility can Reject, Approve, or Request More Information based on if the purchase meets the requirements of applicable policy and if the required documentation has been attached to the PO. If rejected, the PO will be returned to the buyer. If approved, the PO will continue through the rest of the workflow checkpoints and Supervisory Approval Groups as needed since PS will no longer be a final checkpoint. Criteria: PO totals \$5,001 or more and the vendor is not preferred; PO totals \$150,000 or more and vendor is preferred; PO does not contain an SEI entity (05); and PO does not contain only Subcontracts object code (85700). Approval process: PS approval is not a Final Approval checkpoint. The PO will continue through the rest of the workflow the rest of the workflow checkpoint.
- (Qatar Research Office) QRO This workflow process will check for POs that have a Funding Source beginning with 07 or 08 and where the Entity is 68 or 73. If approved, the PO will continue through the rest of the workflow, including the International checkpoint corresponding to the Entity associated with the PO. The QRO checkpoint is not considered a Final Approval checkpoint.
- Benefits This workflow process will check for POs that have a benefits object code (Including domestic and international benefits). Based on the total amount of the PO, a notification will be sent to users assigned the Benefits Responsibility. Users with this responsibility can Reject, Approve, Reassign, or Request More Information. If rejected, the PO will be returned to the buyer. If approved (and there are no additional lines outside of these Benefits criteria) the PO will not continue through the rest of the workflow but instead will be directed to Final Approval unless there is an international entity associated with the PO. The PO will bypass the rest of the workflow and the Supervisory Approval Groups.
- Regulatory (Human Subject Payments, Animal Procurement, BioSafety/RDNA) This workflow process will check for POs that have a regulatory object code. Regardless of the amount of the PO, a notification will be sent to users with the Regulatory Responsibility. Users with this responsibility can Reject, Approve, Reassign, or Request More Information. If rejected, the PO will be returned to the buyer. If approved the PO will continue through the rest of the workflow and the Supervisory Approval Groups.
- Hazardous Materials (HAZMAT) (Chemical, Biological Agent, Radioactive, Human Subject Payments, Biosafety/RDNA, Hazmat Chemical) - This workflow process will check for POs that have a hazardous materials object code. Regardless of the amount of the PO, a notification will be sent to users with the HAZMAT Responsibility. Users with this responsibility can Reject, Approve, Reassign,

or Request More Information. If rejected, the PO will be returned to the buyer. If approved the PO will continue through the rest of the workflow and the **Supervisory Approval Groups**.

- Software Engineering Institute (SEI) This workflow process will check for POs that have an SEI entity. Based on the total amount of the PO, a notification will be sent to users with an SEI Responsibility. Users with this responsibility can Reject, Approve, Reassign, or Request More Information. If rejected, the PO will be returned to the buyer. If approved the PO will not continue through the rest of the workflow but instead it will be directed to Final Approval. The PO will bypass the rest of the workflow and the Supervisory Approval Groups.
- Sponsored Projects Accounting (SPA) This workflow process will check POs >=5K and < 100K that are charged to a federal fund, have an award type of CONTRACT or PRIME FED%, and are not a subcontract, consulting service, capital consulting service, or professional consulting service. It will also check POs >=100K charged to any PTA whether federal or non-federal. Based on the total amount of the PO, a notification will be sent to users with a SPA Responsibility. Users with this responsibility can Reject, Approve, Reassign, or Request More Information. If rejected, the PO will be returned to the buyer. If approved the PO will continue through the rest of the workflow and the Supervisory Approval Groups.
- Office of Sponsored Projects (OSP) This workflow process will check for POs that have a Subcontracts object code. Based on the total amount of the PO, a notification will be sent to users with an OSP Responsibility. Users with this responsibility can Reject, Approve, Reassign, or Request More Information. If rejected, the PO will be returned to the buyer. If approved (and there are no additional lines outside of these OSP criteria) the PO will not continue through the rest of the workflow but instead it will be directed to Final Approval. All international entities will pass to the International Checkpoint regardless of whether OSP is a final approval checkpoint. The PO will bypass the rest of the workflow and the Supervisory Approval Groups.
- OSP Consulting This workflow process will check for POs that have a Consulting Services, Capital Consulting Services, or Professional Services object code and are charged to a federal fund. Based on the total amount of the PO, a notification will be sent to users with an OSP Consulting Responsibility. Users with this responsibility can Reject, Approve, Reassign, or Request More Information. If rejected, the PO will be returned to the buyer. If approved (and there are no additional lines outside of the OSP Consulting criteria) the PO will not continue through the rest of the workflow but instead it will be directed to Final Approval unless there is an international entity associated with the PO. All international entities will pass to the International Checkpoint regardless of whether OSP Consulting is a final approval checkpoint. The PO will bypass the rest of the workflow and the Supervisory Approval Groups.
- International –This workflow process will check for POs that have an international entity. Based on the total amount of the PO (POs auto-created from requisitions over \$50K and any PO created without a requisition regardless of dollar amount), a notification will be sent to users with an International Responsibility. Users with this responsibility can Reject, Approve, Reassign, or Request More Information. If approved the PO will not continue through the rest of the workflow but instead it will be directed to Final Approval. The PO will bypass the Supervisory Approval Groups.
- Director Procurement Services This workflow process will check for POs >\$250K and routes to the Director of Procurement Services for approval. If <=\$500K the PO will not continue through the rest of the workflow but instead it will be directed to Final Approval. The PO will bypass the rest of the workflow and the Supervisory Approval Groups. If >\$500K the PO will approve and be automatically routed to the Controller checkpoint for final approval.

- Controller This workflow process checks for all POs >\$500K and routes to the Controller. If <\$2M the PO will not continue through the rest of the workflow but instead it will be directed to Final Approval. If >=\$2M the PO will approve and be automatically routed to the CFO checkpoint for final approval.
- CFO This workflow process checks for all POs >= \$2M and routes to the CFO. The PO will not continue through the rest of the workflow but instead it will be directed to Final Approval.
- Supervisory Approval Groups After the PO completes all of the workflow checkpoints and if it has not already been directed to Final Approval, it will be directed to the Supervisory Approval Groups. The process will remain the same. If the submitter has the rights to approve (i.e. the amount of the PO is within the dollar limits of the users PO Buyer Group), the PO will approve. If the submitter does not have the rights to approve, the PO will automatically be directed to their Oracle supervisor. The PO will follow the supervisor hierarchy until it finds a person with the appropriate rights to approve the PO.

For workflow checkpoints (excluding supervisor approval), there is a time out period of 5 days. If the approval notification is not acted upon within 5 days, the PO will automatically resubmit one more time to the same checkpoint. If the notification is not acted upon after another 5 days, the PO is returned to the buyer via a notification that no manager was found for the PO approval.

| Responsibility | Description | Name |
|-----------------------|--|---|
| BENEFITS B | Approval Rights for BENEFITS <= \$50,000 | Lisa Ciletti Joyce Heckman |
| BENEFITS D | Approval Rights for BENEFITS <= \$250,000 Approve or Reject BENEFITS > \$250,000 and < \$2M prior to the automatic forward to DIR PS Responsibility | Michelle Piekutowski |
| REGULATORY | No Final Approval | Susan Brunner Ellen Conser Cathy O'Domes |
| HAZMAT CHEMICAL | No Final Approval | Jeffrey Harris Andrew Lawson Shailendra Singh |
| HAZMAT BIOLOGICAL | No Final Approval | Jeffrey Harris Andrew Lawson Shailendra Singh |
| HAZMAT RADIOACTIVE | No Final Approval | Jeffrey Harris Andrew Lawson Shailendra Singh |
| SEI B | Approval Rights for SEI <= \$250,000 | Eileen Eicheldinger Bernadette Ledwich |

The following table lists each checkpoint, dollar thresholds, and current members who can approve in each checkpoint:

| Responsibility | Description | Name |
|-----------------------|---|---|
| SEI D | Approval Rights for SEI <= \$250,000 Approve or Reject SEI > \$250,000 prior to the automatic forward to the DIR PS Responsibility | Heidi Magnelia |
| SPA | No Final Approval | Beth Callaway Teri McCort David Thomas |
| PS | No Final Approval | Jamie Malta Jesse Posset Raymond Taylor |
| OSP E | Approval Rights for OSP <= \$500,000 | Albert Jeffrey Abels Lynn Young |
| OSP F | Approval Rights for OSP <=\$1,000,000 Approve or Reject OSP >\$1,000,000 and < \$2M prior to the automatic forward to the DIR PS Responsibility | Albert Jeffrey Abels Lynn Young |
| OSP CONSULTING | Approval Rights for OSP Consulting <=\$50,000 Approve or Reject OSP Consulting >\$50,000 and < \$2M prior to the automatic forward to the DIR PS Responsibility | Lynn Young |
| INTERNATIONAL 68 B | Approval Rights for International <= \$250,000 | Richard Mundy Katie Price |
| INTERNATIONAL 68 D | Approval Rights for International < \$500K Approve or Reject International >= \$500K prior to the automatic forward to the DIR PS Responsibility | Mark Gambone |
| INTERNATIONAL 70 B | Approval Rights for International <= \$250,000 | Margie Hinebaugh Fatima Seludo Reyes Della Verde Katie Price |
| INTERNATIONAL 70 D | Approval Rights for International < \$500K Approve or Reject International >= \$500K prior to the automatic forward to the DIR PS Responsibility | Mark Gambone |
| INTERNATIONAL 72 B | Approval Rights for International <= \$250,000 | Matthew Coley Katie Price |
| INTERNATIONAL 72 D | Approval Rights for International < \$500K Approve or Reject International >= \$500K prior to the automatic forward to the PS DIR Responsibility | Mark Gambone |
| INTERNATIONAL 73 B | Approval Rights for International <= \$250,000 | Richard Mundy Katie Price |

| Responsibility | Description | Name |
|-----------------------|--|---|
| INTERNATIONAL 73 D | Approval Rights for International < \$500K Approve or Reject International >= \$500K prior to the automatic forward to the DIR PS Responsibility | Mark Gambone |
| INTERNATIONAL 74 B | Approval Rights for International <= \$250,000 | Margie Hinebaugh Katie Price |
| INTERNATIONAL 74 D | Approval Rights for International < \$500K Approve or Reject International >= \$500K prior to the automatic forward to the CFO RESPONSIBILITY(>= \$2M to the CFO and Board of Directors) | Mark Gambone |
| INTERNATIONAL 75 B | Approval Rights for International <= \$250,000 | Romayne Botti Matthew Coley Katie Price |
| INTERNATIONAL 75 D | Approval Rights for International < \$500K Approval or Reject International >= \$500K prior to the automatic forward to the DIR PS Responsibility | Mark Gambone |
| INTERNATIONAL 76 B | Approval Rights for International <= \$250,000 | Romayne Botti Matt Coley Katie Price |
| INTERNATIONAL 76 D | Approval Rights for International < \$500K Approval or Reject International >= \$500K prior to the automatic forward to the DIR PS Responsibility | Mark Gambone |
| INTERNATIONAL 77 B | Approval Rights for International <=\$250,000 | Romayne Botti Matthew Coley Katie Price |
| INTERNATIONAL 77 D | Approval Rights for International < \$500K Approval or Reject International >= \$500K prior to the automatic forward to the DIR PS Responsibility | Mark Gambone |
| DIR PS | Approval Rights for all POs <\$500K. Approve or Reject POs prior to automatic forward to CONTROLLER Responsibility | Teri Nagel |
| CONTROLLER | Approval Rights for >=\$500K Approve or Reject > \$2M prior to the automatic forward to the CFO RESPONSIBILITY (>= \$2M to the CFO and Board of Directors) | Carrie Nelson |
| CFO | Approval Rights for All POs (>= \$2M requires additional approval from the Board of Directors) | Angela Blanton |

| Responsibility | Description | Name |
|----------------|---|---|
| QRO B | Approve PO <= \$250,000, which then forward to International checkpoint for final approval. | Richard Mundy Kemal Oflazer Katie Price |
| QRO D | Approval PO < \$500K Approval or Reject PO >= \$500K prior to the automatic forward to the International Checkpoint for approval, then automatic forward to the DIR PS Responsibility | Mark Gambone |
