University of America School of Medicine
123 Frew St
Springfield, ST 12345

Dear Contact Person and the members of the Admissions Committee,

My name is Abc Xyz. I interviewed on month day, year at the University of America School of Medicine with Person 1 and Person 2 / in the MMI. I am writing to share meaningful updates to my application as well as to express my continued interest in the University of America School of Medicine.

1-2 sentences that provide some sense of how you might be connected with the UoA SOM. 1-3 sentences about how you came to find medicine your chosen path and how UoA SOM came into play. Having visited several medical schools this application cycle / Having had time to reflect upon my interview at UoA SOM, I remained excited about the possibility of attending the UoA SOM.

1-2 sentences about the strength of UoA SOM as a training program. When I visited UoA SOM during my interview, I was taken by the variety and accessibility of medical training facilities both in and out of clinical settings, like facility 1 and facility 2. Interacting with the students and faculty reaffirmed to me the university's values for creativity, leadership, service, scientific inquiry, (list any relevant attributes here) in medical students and physicians. In reflecting on what I have been able to achieve...(list 2-3 things you accomplished as a college student), I have developed my ability to lead, think creatively, explore science, engage others through service...(list attributes listed above to link the two). Not only am I excited by the opportunity to expand upon and implement these skills as a UoA medical student and physician, but also feel that my previous (list experiences such as research, tutoring, service, mentoring...) make me an excellent match for the UoA Med community. When I spoke with Person 1 and Person 2 during my interview, I was excited to hear from both about the breadth of opportunities (list opportunities you learned about during your interview) to further develop these qualities. For instance, I hope to engage the ABC program at UoA to continue building upon my research/service/tutoring...experience(s) while an undergraduate at CMU.

The University of America School of Medicine is an excellent intuition with many strong programs and valuable opportunities that excite me. I would be honored to attend. Thank you very much for your consideration. I look forward to hearing from you.

Sincerely,

/signature/
