

MAKE POSSIBLE

THE CAMPAIGN FOR
CARNEGIE MELLON UNIVERSITY

A NEW HUB *on* WALL STREET *for*

MSCF

Master of Science in Computational Finance

Carnegie Mellon's Master of Science in Computational Finance degree was the first of its kind in the world. Led by 21 full-time, tenure-track faculty with specialties in statistics, math, computer science and finance, MSCF has prepared students for highly successful careers in quantitative finance for nearly 30 years.

With 2,000 alumni and counting, MSCF is in demand for its specialized interdisciplinary curriculum in New York City and Pittsburgh. **To better meet this demand, MSCF recently acquired space in a new location in the Financial District at 88 Pine Street.**

The 12th floor suite features impressive views, ample natural light and modern aesthetics, in addition to new state-of-the-art video conferencing technology and increased collaboration areas. Designed with cohesion in mind between the New York and Pittsburgh locations, MSCF will be the sole tenant of the 12th floor.

At 88 Pine Street, we will continue setting our students up for incredible success — 98% of graduates receive offers within 3 months of graduation — while helping them learn and network in an ideal location just adjacent to Wall Street and easily accessible near the Seaport. Here, students and alumni will engage in mock interviews, experiential panels, presentations and networking to expand their educational and professional prospects.

You can be part of the new hub for MSCF! We invite you to consider supporting this exceptional program and naming a space where students, alumni and professionals will gather to forge the future of computational finance.

MAKING AN IMPACT *for* MSCF

You can make a tax-advantageous gift, encourage students and faculty, and usher in the next decade of excellence in computational finance. We welcome the opportunity to recognize you with naming recognition on a space in the new 88 Pine St. suite in a way that is meaningful to you — for example, named after yourself, a family member or a valued mentor or past faculty/staff member.

NAMING OPPORTUNITIES

\$500,000

Collaboration Space: Seats 50 people, 2,093 sq ft (1 available)

\$250,000

Large Classroom: Seats 60 people, 1,174 sq ft (1 available)
