

## **Spring 2009 Systems Synthesis**

### **Peer Evaluations**

There are three parts to this evaluation. Part I is to be completed only if you worked directly with the person being evaluated. Part II & III should be completed for all team members.

These evaluations will be kept completely confidential and individual submissions will never be shown to your team members. Please respond as honestly as possible. Responses for each team member will be aggregated and assigned a score. These peer evaluation scores will be factored into individual scores when computing individual final grades for the project.

You are required to submit a thoughtful evaluation for each group member by noon on Friday, May 8. Failure to submit will result in your team participation score being reduced by 50%, which will negatively impact your final individual grade for the project.

3. What do you think was <student first name>'s most significant contribution to the final product that was developed for ProjectEducate?

### Part III - Evaluation of Team Member's Individual Contribution to the Group Project

This part of the peer evaluation is for you to evaluate the contributions of **ALL** the members to the **group's effort** on this semester-long project. The group effort encompasses attendance and participation in meetings, contributions to work produced in subgroups and/or final work product, presentations, final report, administrative tasks, and group dynamics.

Please allocate a total of **220** points among your teammates, **including yourself**, with higher points going to those members who contributed most. In the *case of totally equal contribution*, points should be equal among all team members (in this case, **20** points per team member).
