Connecting a Musical Device

Cables - Bring a mini-to-mini cable to the classroom.

1. Connect one end of the cable to the headphone jack on your music device. Connect the other end to the AUX VGA AUDIO jack on the auxiliary input panel. Turn on the device.

Note: If you would like to show a video from an iPod video player, refer to the Connecting a Laptop, iPad, iPhone or iPod Touch module.

Mini-to-mini cable

Auxiliary VGA Audio

Continued on reverse.
Musical device (continued)

**Touch Panel**

1. Touch **Aux Inputs**.
2. The Auxiliary Input Controls appear. Touch **VGA**.
3. Touch the Sound icon and adjust the volume.

For more information, refer to the **Quick Start** module.
