Display Controls: Route Student Computers to Displays

1. Touch **Route Student Computers to Displays**.

2. Touch a student seat number from the map.
   
   **NOTE:** Each computer/LCD display is labeled and corresponds with the map.

3. Touch an area to display the device:
   
   a. Display on the primary LCD display
   
   b. Display on any individual LCD display in the room
   
   c. Display using **Synchronize all Displays With Main Display** to project the same image to all LCD displays.
