## Additional Instructions for ActiveSync Users

---

If you had created an ActiveSync partnership with your device before you installed Oracle Calendar Sync, the ActiveSync preferences will not recognize Oracle Calendar Sync as a personal information manager (PIM) because it was not present when your "partnership" was created.

To correct this problem, you will need to delete your partnership and create a new one. Follow these steps to create a new partnership using Oracle Calendar Sync as your personal information manager (PIM).

1. Launch Microsoft ActiveSync.
2. Disconnect your pocket PC device.
3. From the ActiveSync window, select File > Delete partnership.
4. Reconnect your pocket PC device. The New Partnership wizard will start automatically.
5. Follow the directions on the screen.
6. In the "Select a Personal Information Manager" dialog box, select Oracle Calendar Sync.
7. Follow the instructions on the screen to finish configuring your partnership.
