Trouble with audio/video output?

**Audio**
If a student computer is selected on the instructor’s lectern control panel room map and displayed on the overhead LCDs but there is NO SOUND, perform the following steps on the selected student computer:

1. **Right-click** the small speaker icon in the System Tray (Start menu near the time).
2. Select **Playback Devices**.
3. Click **AMD HDMI Output** to select it.
4. Click **Set Default** at the bottom of the window.
5. Click **OK**.

**Video**
If the student computer is selected on the instructor lectern control panel room map, but there is NO IMAGE on the LCDs (black screen), perform the following steps on the selected student computer:

1. **Right-click** the desktop in an empty space (not within a window) or click the **Start** menu and enter **Adjust Resolution**. Select **Adjust Screen Resolution**.
2. Click **Screen Resolution**.
3. Next to “Multiple Displays”, select **Duplicate these displays**.
4. Click **OK**.
