ATTENTION!!

If you enter spaces posted with \textit{orange, biohazard signs}, you are required to take Ancillary Biosafety Training.

\textbf{Ancillary Biosafety Training}  
\textbf{Online Training and Quiz}  
\textbf{Approximate time:} 0.5 hours  
Required for those persons who do not work with biohazardous materials themselves, but who work in an area posted for biohazards, or who have cause to enter such an area as part of their work.  
\textbf{Signing up for Ancillary Biological Safety Training}  
This course is being taught using CourseSites by Blackboard.  
\textbf{To enroll in the course …}  
1. Launch a browser (Firefox or Chrome is recommended) and enter the following URL to the course home page: \url{https://www.coursesites.com/s/_AncillaryBioSafety}  
2. After following the URL, click the \textit{Self-Enroll} button.  
3. Create an account. Enter a valid email address (preferably your CMU email) and your full name in the corresponding fields. \textit{Use your AndrewID as your username, if available.}  
**When signing up, take note that you can register using existing account information from popular web services like Facebook, Twitter, LinkedIn, Gmail, Yahoo and Windows Live to make it easier to login.**  
\textbf{To fulfill the requirements of the course…}  
1. View the presentation using the link on the left hand side of the page. You can also download and print the presentation for your reference.  
2. After reviewing the presentation information, take the short, 10-question quiz to confirm you have completed the training. A minimum score of 70/100 is needed to pass the course. The quiz can be retaken as needed to fulfill that requirement.  
3. Once you have obtained the minimum score or above, email Andrew Lawson (alawson@andrew.cmu.edu) to inform EHS that the course requirement has been met. After your score has been verified, your training record will be put into the EHS database for future reference.
