Release #65 introduced new functionality and enhancements for the Waitlist Maintenance process. New users are encouraged to reference the S3 QuickStart Guide and the Web Tutorial section for basic “how to” instructions.

Release Highlights

- Course Waitlist Maintenance Changes
  - Added “Invite to Register” option on Waitlist Maintenance page
  - Allows S3 users to send an invitation to students on the waitlist who have a max units or scheduling conflict
  - Students will receive an email with instructions on how to resolve the conflicts in order to register themselves from the waitlist
  - Invitation expires after a period of time, at which point the student is removed from the waitlist if they have not taken any action
  - New Waitlist History option in S3 lists all students who were registered or removed from the waitlist, including whether they were sent an invitation to register
  - New icons indicate which students have conflicts 🡿 or have already been sent an invitation 🡾
  - Also added information such as students’ additional majors/minors, max/cap/actual enrollment of the course section, cross-listed sections, and more

- ‘View in SIO’ Functionality in S3
  - Allows authorized users to view SIO from the student’s perspective to better assist students with questions and troubleshooting
  - “View in SIO” can be found in the gear menu options on the S3 Student Summary page
  - Eliminates the need to use SIO Admin Console for the “view as »” student functionality

Additional Changes:
- Corrected issue with SIO and S3 dropdown lists “disappearing” when selecting from list
- Resolved intermittent errors on Update Instructor, Course Reservations, and Faculty Course & Grade Info gear menu

Coming in the Next Six Months…

- Student Accounts Advanced Search functionality, plus continued new development and screen enhancements for the Student Accounts Office, the Office of Undergraduate Admission, and the University Registrar’s Office
