Tepper School of Business

Kenneth B. Dunn, Dean
Office: Tepper School of Business 102
www.tepper.cmu.edu

The Tepper School of Business at Carnegie Mellon University conducts educational programs not only at the undergraduate level (see p. 334 for the program in Economics and p. 331 for the program in Business Administration) but also at the masters, doctoral, and executive levels. The school attracts students of outstanding promise and produces professional leaders who are prepared to manage in a rapidly changing marketplace. From its inception more than 50 years ago, we have been at the forefront of innovation in management education. The school's pioneering achievements in problem solving and interdisciplinary teamwork have been adopted by many prestigious business schools. The Tepper School's commitment to excellence has consistently earned the school a Top 10 ranking among the top business schools in the nation.

The undergraduate and masters students gain a solid foundation in the fundamental scientific disciplines of economics, the behavioral sciences, and the management sciences. The program emphasizes the functional areas of accounting, information systems, finance, marketing, production management, and human resources management. In addition, students attain analytical problem-solving skills, computing skills, and written and oral communication skills. The curriculum culminates in the application of knowledge to real-world problems, so that students can integrate and apply what they have learned.

At the Tepper School, research and education are closely related. Our outstanding faculty develops new ideas and brings results of its research to the students, demonstrating the importance of critical thinking and of a continuing search for excellence. The faculty is particularly renowned for cutting-edge work in operations research, economics, management information systems, finance, accounting, marketing, and operations management/production. Among our faculty legacy are 6 Nobel laureates, a Nobel record that is unsurpassed by any business school worldwide. The Tepper School alumni have a remarkable track record of success and leadership in careers spanning global industries such as finance, strategy, marketing, and general management. They are represented internationally in the ranks of the Fortune 500 companies, as heads of dynamic entrepreneurial ventures, and as leading faculty members in America's top academic institutions. Moreover, they provide a strong network for new graduates.

3-2 Program for Carnegie Mellon Students

All Carnegie Mellon undergraduates with outstanding academic performance are eligible to apply to the Tepper School of Business for the Tepper School's prestigious MBA program. Students who are accepted bypass their senior year as undergraduates and earn both their bachelors degree and their MBA degree in five years. Applicants to the 3-2 program are evaluated not only on their academic achievement but also on their maturity, commitment, sense of direction, and interpersonal and communications skills. Their experiences in summer internships and their extracurricular activities are also evaluated. Admission to the MBA program is highly competitive, and 3-2 applicants compete with the entire applicant pool for spaces in the program. Students interested in the 3-2 program should read the MBA catalog, available from the Masters Admissions Office. They should also talk with their individual departments concerning completion of their undergraduate requirements.

Full-Time Faculty

MUSTAFA AKAN, Assistant Professor of Operations Management and Manufacturing — Ph.D., Northwestern University; Carnegie Mellon, 2008—.

LAURENCE ALES, Assistant Professor of Economics — Ph.D., University of Minnesota; Carnegie Mellon, 2008—.
