Special housing requests are subject to recommendation by University Health Services based on medical documentation and availability of accommodation. This Special Housing Needs Form is to be thoroughly completed and returned to the address at the bottom of this page as University Health Services will not issue a recommendation without this documentation. Housing and Dining Services will make every attempt to accommodate housing preferences in conjunction with a reviewed special housing need for which University Health Services recommends accommodation; however, the limited capacity of some areas and the number of students to be housed may dictate that you be assigned to an area you did not indicate as one of your preferences. Requests received after room assignments are issued may not be honored due to decreased availability.
