

Campus Community,

The Carnegie Mellon Factbook is a compilation of commonly requested data and statistical information about Carnegie Mellon. It includes information about students, alumni, faculty and staff. You can use The Factbook to find information on admissions, enrollment, teaching, research, and University finances and facilities. The Factbook also provides some useful comparative data from other universities. The data presented in the tables and graphs are from internal sources except where noted. The terms used are defined in the Appendix.

The Carnegie Mellon Factbook is intended primarily as an internal document, produced annually for use by members of the campus community. We encourage you to keep this book handy and use it as a reference. This publication will be placed on the World Wide Web at <http://www.cmu.edu/ba/planning/index.htm>.

We in University Planning Services want this book to be a reliable source of accurate and useful information. Your suggestions and comments on the contents, format and usefulness of The Factbook will help with the continual improvement of this information tool. Call University Planning at 412-268-6342 or send an e-mail message if you have questions or suggestions for improving the report.

CARNEGIE MELLON UNIVERSITY

VISION

Carnegie Mellon will be a leader among educational institutions by building on its traditions of innovation, problem solving and interdisciplinary collaboration to meet the changing needs of society.

MISSION STATEMENT

To create and disseminate knowledge and art through research and artistic expression, teaching and learning and transfer to society.

To serve our students by teaching them teamwork, leadership and problem-solving skills, and our values of quality, ethical behavior, responsibility to society and commitment to our work and each other.

To pursue the advantages provided by a diverse community, open to the exchange of ideas, where discovery, artistic creativity, and personal and professional development can flourish.

GOALS

Education

Build upon our educational programs, distinctive in their rigor and focus, by expanding intellectual and personal development. Our students will become broadly educated, humane leaders who will have an important impact in their professions and communities.

Research

Lead in defining the national and international research agenda by leveraging our strengths across disciplines and exploiting opportunities to contribute to scientific and humanistic understanding, technological advances and artistic creation. Ensure that the benefits of the research experience - the power of collaborative discovery - help educate leaders for the next generation.

Strategic Areas of Leadership

Aggressively develop and implement selected areas of focus that capitalize on strengths across the university and for which resources are obtainable.

International Initiatives

Selectively expand our international impact by building on existing strengths in order to compete effectively on a global basis for research and educational opportunities, academic talent and financial resources.

Regional Impact

Use our strengths, in collaboration with other Pittsburgh institutions, to advance the educational, economic, social and cultural opportunities of the region for all its citizens.

Community Success

Provide a rewarding environment that enables our students, faculty, staff and alumni to succeed in advancing the university mission.

Financial Strength

Expand and diversify our financial base to enable us to achieve our mission.

CARNEGIE MELLON UNIVERSITY LIBRARY COLLECTIONS AND UTILIZATION FISCAL YEARS 1998 TO 2000

Electronic Information Resources and Access

The University Libraries provide access to a variety of digital information, including the library catalog and other local databases, and a growing number of commercial databases that are licensed for use by the university community. Access methods continue to change as the delivery of electronic information evolves. Currently, Internet (Web) access predominates.

The web-based library catalog (Cameo) contains records of items owned by the libraries, as well as items on order or being cataloged for library collections. Cameo is part of a system that integrates acquisitions and cataloging functions with circulation, reserve, and user service functions. Users can see if items are available or checked out when they use the library catalog; they can also request services (like Renew Item or Request Check-out Item).

Users may access Cameo from any computer with Internet capability at:

<http://www.library.cmu.edu>

As the digital library environment matures, more full-text documents and images are becoming available. Some vendors who are providing full-text documents are no longer reporting numbers of searches.

EBERLY CENTER FOR TEACHING EXCELLENCE

The Eberly Center for Teaching Excellence, formerly the University Teaching Center, was established in 1982 to organize and conduct programs to improve the quality of instruction at Carnegie Mellon. In recognition of The Eberly Family Charitable Trust support, the Center was renamed in 1996. The Center helps both faculty members and graduate students to improve teaching practices through introduction to theories of teaching and learning, reflection, practice and feedback.

The Center for Teaching offers both public forums to discuss and explore issues related to teaching and learning and private consultations on course design or redesign, implementation, and formative evaluation. Individual consultations are strictly confidential.

Whenever possible, the Center facilitates discussions of teaching and learning across departments and colleges both to address common concerns and to help transfer and adapt promising strategies to a variety of contexts. The Center aims to respond to the continually changing educational needs of the campus community.

Summary of Programs

Support for Faculty

Assistance with Using Writing in Courses	Assistance with Working with TAs
Incoming Faculty Orientation	Consulting on Education-Related Grants
Faculty Luncheon Seminars	Technology Enhanced Learning Lab
Discussions with Faculty in First-Year Courses	Center for Teaching Publications
Individual Consultations: Course Design, Implementation and Formative Evaluation	

Publications

The Center for Teaching has several publications which can assist faculty in course development and implementation. Among the available publications

Best Practices in Teaching First-year Undergraduates

Common Difficulties in Planning Courses

Resources for TA Training & Development

Promoting Academic Integrity

Support for Graduate Students

- Documentation of Teaching Development for Future Faculty
- Seminars on Teaching
- Classroom Observation and Peer Feedback by Teaching Fellows
- Assistance with Early Course Evaluations

- Microteaching and Feedback Workshops

* SEI change in accounting practice; cost recovery revenues presented as contra-expense in fiscal years 1996-1999. This accounts for the difference in this page's Total Sponsored Research Costs and that reported on page 75 of the Factbook.

**There was an \$11,322,000 increase in Total Sponsored Research Costs from FY99 to FY00. About half of this increase was due to an actual increase in Total Sponsored Research Costs, mainly from non-federal agencies. However, the other half is attributed to a different method of accounting due to the conversion to Oracle.
