2017 MSE/MSIT Video Essay

**MSE/MSIT Applicants (optional, but strongly recommended):** Prepare a 1-2 minute video that lets the admission committee know who you are, what you do well, your motivation for applying to the program, and your short and longer-term personal and professional goals. The video (and audio) must be of the applicant (not a proxy). There should be only one person in the video. An applicant with a video essay will have an advantage over an otherwise identical applicant without a video essay.

Upload the video to an easily accessible website (such as YouTube), and give us the URL and the required access codes. You will find an appropriate field for both below. It is the applicant’s responsibility to correctly configure the security and access settings for the video. We recommend that you, the applicant, use the strongest privacy settings that still allow our access to the video. If using YouTube, we suggest using the "Unlisted Video" setting so that only individuals who have the URL can view it.

The applicant is also responsible for adhering to the terms and conditions of the website that you use to share the video essay. Following evaluation of the video essay, please know that the program will retain a short excerpt (or screen shot) of the video as a part of the official student record.

Be advised that we are unable to watch videos that come in any form other than a URL link. We will not accept videos sent via email or on DVD through the mail.
