Pennsylvania Driver's License and State ID Information for Non-US Citizens

Many non-immigrants and their dependents obtain a Pennsylvania (PA) driver's license or state identification (ID) card through the PA Department of Transportation (PennDOT). In addition to providing visitors the opportunity to drive, a state-issued photo ID can be a good alternative to the passport. Each state has different requirements for the issuance of driver's licenses and state ID cards. This handout provides detailed information for non-immigrant F, J, and H visitors who wish to obtain a PA driver's license or state ID card.

To be eligible for a PA driver's license or state ID, a non-immigrant must have at least one year remaining on their immigration document (I-20, DS-2019, or H-1B/H-4 Approval Notice). Generally, visitors who will be in the U.S. for less than one year are expected to use their home country driver's license plus the international driver's permit (in English). International driver's permits must be obtained outside of the U.S.
