

There are two different types of Universal Permits available with a reasonable need to have access to any Carnegie Mellon parking lot:

- Mini-universal permit (for university owned vehicles)
- Universal permit (for employee use in privately owned vehicles)

Please describe your request for a universal permit in the space at the bottom of this application.

Requests for U-Permits will be reviewed and notification will be made when you receive your parking permit.

To request a U-Permit for this year's parking allocation, please complete the notice at the bottom of this application. Return your request to the Parking & Transportation Services Office, located on the lower level of the University Center.
