

Disaster Management and Emergency Services Workshop

Event: March 26, 2010; mail paper to disaster@sv.cmu.edu by March 12, 2010

Paper title:

Name:

Role/Title:

Organization:

Preferred Contact:

How can new technologies and approaches improve outcomes, reduce costs and/or improve response times for an emergency?

If you were offered 10-15 minutes to give a short talk, what would it be?

What are the most pressing business, process, organization and technical issues?

What is the role of university research in this area?

Do you want to propose and help run a new breakout group?

What is the most important action the DMI can take?
