Main Content Area

The two basic page types in the CMS are the 2 column and 3 column pages. The difference between the two is that the 3 column page has an area to add callout boxes to the right.

Important Tips

- System names should be all lowercase letters with no spaces; use a hyphen (not an underscore) between words
- Give the first page of every folder the system name of index
- Visit [www.cmu.edu/cms](http://www.cmu.edu/cms) for help
