Why

Online Education Trend

- Rapid increase in popularity of Online Education
  - 32% of students (6.1 million students) take at least one online course
  - 77% of academic leaders perceive online education as the same or superior as compared to face-to-face education
  - $60 million Amount invested by Harvard and MIT to edX

Issues

- Overload of online courses
  - Users often face and overload of results when they search for online courses (e.g. 4 MOOC providers provide over 30 online courses for Ruby on Rails)
  - Today, users have to go to multiple sites individually in order to find the best courses that suit their needs.

- Low course completion rate
  - 5% pass rate in MITX (online courses)

What

Search

- Aggregates over 5000+ online courses from popular MOOC providers (Coursera, edx, CodeAcademy, Udemy etc.)
- Partnership with Udemy

Review

- Provides reviews with unified 5 star rating system
- Provides key factors on online courses (provider, school, cost, time commitment etc.) for easy comparison

Share

- Tracks completed courses
- Connects students with students
- Connects students with employers
- Motivate users to complete courses by allowing them to share their achievements
