MY  
HEART  
IS IN THE  
WORK

**This is a place where differences motivate and propel us; where fresh perspectives energize our classrooms and fuel our work toward a greater good.** You're free to explore classes from different colleges and schools or choose an interdisciplinary major or minor.

Research has always been at the heart of everything we do. If discovering new knowledge is your kind of learning — and it is for many of our students — you can begin as early as your first year, no matter what your major.
