

*Please select the grant for which you are applying:*

- ☐ **Margaret Carver Research Enrichment Grant**  
Presented to one Biological Sciences Ph.D. student or  
Postdoctoral Fellow annually.

- ☐ **Stupakoff Graduate Student Research Enrichment Grant**  
Presented to one Biological Sciences Ph.D. student annually.

**Email form & CV to:**  
Ena Miceli, Director of  
Graduate Operations  
emiceli@andrew.cmu.edu

This grant will be used to enhance the grantee's research through activities such as buying time on instrumentation, attending advanced courses, traveling to collaborator's labs or other activities that can be demonstrated to enhance research that would otherwise not be possible. Applicants should provide a one-page description of the proposed activities and a short explanation of how these activities will positively impact their research. A current CV should also be included. The grantees will be selected based on their record of research accomplishment and the projected research impact of their use of the grant funds.
