

DANNY MAGRUDER

PROGRAM: BME MASTER - RESEARCH

HOME TOWN: PORTLAND, OR

CONTACT

dmagrude@andrew.cmu.edu

Office Hours: Tues 10-11am

HOBBIES

Soccer, Rocket League, Hiking, Travel

FACTS NEW STUDENTS MAY NOT KNOW ABOUT PITTSBURGH, CMU OR BME

Frank Lloyd Wright, the most famous American architect, designed a house, "Fallingwater" only an hour outside the city, which is a great reason to get out of the city and explore for a bit! And a bit of history: the former country of Czechoslovakia was signed into existence here in Pittsburgh!

LEARN ABOUT CMU BME AMBASSADORS

FAVORITE THING ABOUT BME DEPARTMENT

Beyond all the research opportunities with outstanding professors, the BME department hosts potlucks and get-togethers that really give a sense of community!

FAVORITE THING ABOUT CMU

Before coming to CMU, I had little intimate knowledge of cultural holidays. The amazing diversity throughout the school and inclusivity allows students to join events, that previously weren't available. The most fun I've had was actually during a Holi celebration that brought live music to campus!

WHY I PICKED CMU FOR MY GRAD STUDIES?

Being one of the reasons I wanted Pittsburgh, I actually enjoy the rain! And beyond the proximity to several east coast cities, CMU had incredible opportunities through the BME department, which I felt would prepare me for my future studies and aspirations. There is a lot to do in BME, but try to take advantage of all of it!

LONG-TERM CAREER GOALS

After my master's, I intend to continue on to a doctorate! I want to continue doing research beyond that, so I will probably accomplish this through some professorship!
