

CARNEGIE MELLON UNIVERSITY BME 2022 FALL SEMINAR SERIES

Insights into Science Policy and Public Engagement in Science at the White House

PRESENTED BY

Erica Kimmerling

Senior Policy Advisor for Public Engagement in Science
White House Office of Science and Technology Policy

SCHEDULE

Zoom

**Thursday,
October 6, 2022
(10:15AM-11:15AM)**

The White House Office of Science and Technology Policy (OSTP) works to maximize the benefits of science and technology to advance health, prosperity, security, environmental quality, and justice for all Americans. OSTP develops science policy on everything from the Cancer Moonshot and pandemic preparedness to cryptocurrencies and artificial intelligence. Public engagement and participation in science, and science policy, are an essential part of earning public trust and ensuring a more equitable science and technology ecosystem. This discussion will also touch on my personal journey from biomedical engineer to Senior Policy Advisor for Public Engagement in Science at OSTP.
