

How Much Will I be charged for my Student Worker?

Currently, for the academic year an employer is charged:

Federal Work-Study (FWS)
60% of the total gross wages paid to the student

Federal Community Service Work-Study (FCS) 30%
of the total gross wages paid to the student

Non-Work-Study (NWS)
100% of the total gross wages paid to the student

Currently, for the summer session an employer is charged:

Federal Community Service Work-Study (FCS) 30%
of the total gross wages paid to the student

Non-Work-Study (NWS)
100% of the total gross wages paid to the student

As indicated above, the amount the employer is charged varies with each program, period, and student eligibility. Enrollment Services oversees this process; the employee does not need to do anything.
