

ADVANCED MUSIC STUDIES CERTIFICATE
Piano Maintenance (graduate)
2015 and Later

When? Grade?

Major Area

54

Students will take courses in the tuning and servicing of vertical and grand pianos, acoustics, business, history, and practicums in the direct application of piano maintenance techniques, including tuning, repair, and rebuilding. Satisfactory completion of this concentration will help prepare the student for the Piano Technician's Guild certification exams.

General Electives

9

A wide variety of Independent Study proposals with a member (or members) of the Carnegie Mellon faculty may be approved. These may include research projects in the area of piano maintenance and any other approved area of study. Or, students may propose to enroll in a relevant class chosen from the existing School of Music or University class schedule.
