

1

BUILD A CO-BOT

Games need characters. One of the characters in our game will be a co-bot, and we need your help to decide what our co-bots will look like.

1

First take the air dry clay out of the package and make it into what you think a co-bot should look like.

2

When you are done making your co-bot friend, upload a picture of them to the app.

3

Tell us about your co-bot! Upload a voice message telling us all about your co-bot. You can tell us their name, what they can do, and what they'd help you with.

YOU CAN USE THIS SPACE TO WRITE DOWN IDEAS!

REMEMBER!

A co-bot is a robot designed to work closely with humans. That means they have to share space with humans and work together.
