

# welcome to your new enterprise account.

Your IT Administrator has created a new enterprise account for your Adobe products and services. To access your existing content, you must migrate all content from your current Adobe ID account to your new enterprise account.

[Learn more >](#)

## Move your content:

1. Sign in to your current Adobe ID account to make sure that you have:
  - **Saved** all your work on all your devices.
  - **Synced** content on all your devices.
  - **Removed** all personal content from your Adobe ID account across all your devices.
2. Sign in to your new enterprise account.
3. Provide your consent to migrate content to your new enterprise account.
4. Once migrated, you can access your content when you sign in to your new enterprise account.

See the [step-by-step guide](#) for detailed information. Contact your IT administrator for more information.
