Process for Faculty/Staff Who Receive a Positive COVID-19 Test Result

If a CMU faculty or staff member receives a COVID-19 positive test result, the following steps will be followed.

1. **Inform & Connect**
   - **If test was administered by CMU via Tartan Testing**
     - If your test result is “Detected-Positive” for COVID-19, you will be notified of your test result by receiving an email from University Health Services. To access your test results, log on to HealthConnect at [https://cmu.edu/healthconnect](https://cmu.edu/healthconnect) with your Andrew username: Select Medical Records from the left navigation menu. Select Labs from the toolbar at the top of the screen. Click on the lab report to review the test results.
   - **If test was NOT administered by CMU via Tartan Testing**
     - If you are probable or confirmed positive for COVID-19, you must report this information to Community Health and Well-Being (CHWB) at CHWB@andrew.cmu.edu.

2. **Isolation & Support**
   - **Isolate**
     - It is important for you to remain isolated to care for yourself and the community.
     - OHR has provided guidance about support and available options.
   - **CHWB** will conduct contact tracing to identify any close contacts related to the university. CMU contact tracers work closely with Allegheny County Health Department who coordinates any further tracing efforts for non-CMU affiliates.
     - This consists of an interview where you will be required to provide as much information as possible about close contacts (within 6 ft. for more than 15 minutes) in the days preceding your diagnosis. Those contacts will be notified. Your identity will be protected during this process.
     - Information regarding your circumstances will only be shared as necessary for the university to safeguard the community and to comply with any applicable laws or government orders.

3. **Clearance**
   - **After a minimum of 10 Days**
     - You will not be able to return to campus until you have received clearance by a health care provider. You must complete the clearance process through OHR before returning to work. leavemgmt@andrew.cmu.edu.
   - **CHWB** will inform OHR of the correct dates of isolation in order for you to be provided guidance regarding leave and other benefits.
   - **FMCS**, with information from **CHWB**, will assess the need for a closure of any impacted space(s). If necessary, **OHR** will support supervisors in communicating the status of a case with impacted unit.
