WELCOME

As the Director of Graduate Studies, I am pleased to welcome you to Carnegie Mellon’s Department of History. This handbook is intended to clarify departmental policies concerning graduate study. It is not a comprehensive guide to University policies that may affect graduate students, and it does not supersede any such policies.

While this handbook is specific to your academic experience in the department, there are several other resources and offices that we encourage graduate students to consult during their tenure at Carnegie Mellon University. Information about The Word, the student handbook, the Graduate Education Office, the Office of the Dean of Student Affairs and others is included in Appendix A of this handbook.

Christopher J. Phillips
Associate Professor and Director of Graduate Studies
Department of History
The Mission of The Department of History

The Department of History conceives its primary missions as falling into six broad categories, all of vital importance:

- contributing centrally to humanistic education and the internationalization of learning at Carnegie Mellon;
- seeking excellence in undergraduate instruction by emphasizing breadth of learning, command of basic research skills, precision in writing, and facility in oral communication;
- developing innovative undergraduate majors, all with an interdisciplinary orientation, in Social and Political History; Global Studies; and Ethics, History and Public Policy;
- sponsoring a strong doctoral program that is based on the national, thematic and methodological strengths of the faculty and informed by broad transnational and global perspectives;
- fostering an adventurous intellectual climate that nurtures and rewards individual and collaborative scholarship, within and across disciplines; and
- sustaining a commitment to diversity in the recruitment, mentoring, and retention of faculty, graduate students, and staff.

Degrees Offered

The department’s program only admits students for the Doctor of Philosophy in History. However, the department bestows a Master’s Degree in History en route to the Ph.D. after the successful completion of four semesters of course work and the production of a research paper.

Graduate Student Handbook

This handbook provides information on degree requirements and departmental resources as well as general guidance for graduate students in the Department of History.

The Graduate Student Handbook can also be found here: https://www.cmu.edu/dietrich/history/graduate/about/index.html

University Policies & Expectations

It is the responsibility of each member of the Carnegie Mellon community to be familiar with university policies and guidelines. In addition to this departmental graduate student handbook, the following resources are available to assist you in understanding community expectations:

- Academic Integrity Website: https://www.cmu.edu/policies/student-and-student-life/academic-integrity.html
- University Policies Website: www.cmu.edu/policies/
- Graduate Education Website: http://www.cmu.edu/graduate/policies/index.html

Please see Appendix A for additional information about *The Word* and University resources.
Carnegie Mellon University Statement of Assurance

Carnegie Mellon University does not discriminate in admission, employment, or administration of its programs or activities on the basis of race, color, national origin, sex, handicap or disability, age, sexual orientation, gender identity, religion, creed, ancestry, belief, veteran status, or genetic information. Furthermore, Carnegie Mellon University does not discriminate and is required not to discriminate in violation of federal, state, or local laws or executive orders.

Inquiries concerning the application of and compliance with this statement should be directed to the university ombudsman, Carnegie Mellon University, 5000 Forbes Avenue, Pittsburgh, PA 15213, telephone 412-268-1018. Obtain general information about Carnegie Mellon University by calling 412-268-2000. The Statement of Assurance can also be found on-line at: https://www.cmu.edu/policies/administrative-and-governance/statement-of-assurance.html.

The Carnegie Mellon Code

Students at Carnegie Mellon, because they are members of an academic community dedicated to the achievement of excellence, are expected to meet the highest standards of personal, ethical and moral conduct possible.

These standards require personal integrity, a commitment to honesty without compromise, as well as truth without equivocation and a willingness to place the good of the community above the good of the self. Obligations once undertaken must be met, commitments kept.

As members of the Carnegie Mellon community, individuals are expected to uphold the standards of the community in addition to holding others accountable for said standards. It is rare that the life of a student in an academic community can be so private that it will not affect the community as a whole or that the above standards do not apply.

The discovery, advancement and communication of knowledge are not possible without a commitment to these standards. Creativity cannot exist without acknowledgment of the creativity of others. New knowledge cannot be developed without credit for prior knowledge. Without the ability to trust that these principles will be observed, an academic community cannot exist.

The commitment of its faculty, staff and students to these standards contributes to the high respect in which the Carnegie Mellon degree is held. Students must not destroy that respect by their failure to meet these standards. Students who cannot meet them should voluntarily withdraw from the university.

The Carnegie Mellon Code can also be found on-line at: https://www.cmu.edu/student-affairs/theword/.

Departmental Resources

The History Department is located in Baker Hall 240. The department phone number is 412.268.2880. Fax number is 412.268.1019. The department website address is www.cmu.edu/dietrich/history/. Computer technical support for technology owned by the university is available in Baker Hall 239. Departmental Mailboxes for all students and faculty, as well as copy machines and scanners for official department use are also located in Baker Hall 240.
Departmental Personnel

Dietrich College Dean: Richard A. Scheines, BH 154H, scheines@cmu.edu

History Department Head: Nico Slate, BH 240E, dh44@andrew.cmu.edu

Director of Graduate Studies: Christopher J. Phillips, BH 235C, cip1@cmu.edu

Graduate Coordinator: Lisa Everett, BH 240F, ls2y@andrew.cmu.edu

Senior Academic Coordinator: Amy Hallas Welles, BH 240C, ah18@andrew.cmu.edu

Academic Calendar

The Academic Calendar can be found at https://www.cmu.edu/hub/calendar/index.html and provides information on all deadlines including registration dates, class start dates, add/drop deadlines, exam dates and more.

Degree Attainment

General Requirements

The basic requirements for the doctoral program are as follows:

1. Two years of coursework with satisfactory grades, for a total of 150 units (12.5 courses)
2. Graduate Portfolio approval (no later than the end of the fifth semester)
3. Oral Examination successfully completed (no later than the end of the sixth semester)
4. Dissertation Prospectus approval (no later than end of the seventh semester)
5. Doctoral Dissertation approval (by the end of the tenth year)

Coursework

Required courses: 9.5

- Theory and Method
- Proseminar in United States history
- Proseminar in Transnational history
- Workshop in Digital History
- Workshop in Public and Applied History
- Research Seminar (two semesters)
- Two of five courses in the following thematic clusters: African, African American and African diaspora; Culture and Power; Labor, Politics, and Social Movements; Technology, Environment, Science, and Health; and Women, Gender and Family
- Mini course in instruction
Elective Courses: 3

- Additional cluster courses (more than the required two)
- Directed readings with individual faculty members
- Departmental elective courses
- Undergraduate courses with an added graduate component
- Courses in related CMU departments or schools
- Graduate Courses at University of Pittsburgh

The Research Seminar

The Research Seminar is a critical part of the graduate program. Here students develop and master the skills in research, analysis, and writing that are necessary before undertaking a doctoral dissertation. Students are encouraged to begin to identify a suitable dissertation topic and produce an original article-length contribution based on primary source research. Above all, a student must demonstrate in the Research Seminar that she or he is capable of conducting research in primary sources and using these sources to develop new historical knowledge. The Graduate Studies Committee views a student’s performance in the Research Seminar as perhaps the single best predictor of success in designing and completing a doctoral dissertation.

Students will be registered members of the research seminar for two semesters. The Research Seminar will require each student to complete a research paper by the conclusion of the second semester. The Seminar itself will focus initially around problem definition, move toward primary source location and evaluation, and evolve toward preliminary presentation and critique of students’ research products. The Research Seminar instructor will work closely with students' advisors to keep them well informed of their student's progress in the seminar and solicit their impressions of each student's work.

Graduate Portfolio

Beginning in the spring of the 2nd year, all students create graduate portfolios in consultation with a team of three faculty members (the portfolio committee). The portfolio process, which culminates in the middle of the 3rd year, is an opportunity for students to gather all of the work produced in the first two years of the program, and to connect that work to extensive reading lists in particular fields and other materials that prepare students for future teaching and for doctoral research.

In the fall of the 2nd year, students should begin to think seriously about the make-up of their portfolio committee and the fields in which they will create their reading lists. The student and the advisor should work together to design a preliminary ensemble of fields, and to identify appropriate faculty to supervise each of these fields and to serve on the student’s portfolio committee. The fields and the make-up of the portfolio committee should be finalized by the end of March of the 2nd year.

Although no single formula can define what is an acceptable field or ensemble of fields for the Graduate Portfolio reading lists, the following guidelines are nevertheless necessary to maintaining consistency and ensuring that students shape their work in ways that reflect the organization of the historical profession.

Each student is required to select three fields for the Graduate Portfolio. At least one of the fields must be at the national level (e.g., the U.S., Russia, Germany) and/or at the regional level (e.g., Latin America, Europe,
Atlantic World). The other fields can be thematic or topical in design (e.g., environmental history, women's history, African-American history), and at least one should be comparative or transnational in scope (e.g., labor in Europe and the United States; technology in the U.S. and the Soviet Union; race and class in the U.S. and Latin America).

Once a preliminary design (i.e., the basic titles and chronological bounds of the fields and the faculty field supervisors) is arrived at, the student should communicate his or her fields to the Director of Graduate Studies and the Graduate Coordinator. The Director will communicate any problems s/he perceives with the choice of fields to the faculty members of the Graduate Studies Committee. The Committee reserves the right to request modifications to the basic design of the fields if they do not conform to the above-stated guidelines, in which case the student must redesign the selection of fields. Once a preliminary design is approved, the student’s advisor and the other faculty field supervisors assume responsibility for the student's development of these fields, for maintaining the department’s objectives for field coherence and breadth, and for the examination of the student for mastery of the literature included in the final design of each field.

By the end of April of the student’s second year, the student will provide to all three portfolio committee members copies of all written materials assembled at that point. These materials will include all relevant essays written over the student’s first two years in the program. The student will also provide draft reading lists for each field. Each reading list will contain approximately 35-40 book equivalent readings.

By the end of May, the student and all three examiners will sign a written agreement stipulating what each committee member is asking of the student. At this point, reading lists, additional essays, and all other materials must be agreed upon.

Faculty examiners will meet regularly with students during the fall semester of the 3rd year. The portfolio will be submitted by December of the 3rd year and will include:

1. Overview. A short 5-10 page document that summarizes the portfolio contents and explains how the student’s fields, research, and teaching cohere.
2. Three thematically organized reading lists displaying the chronological, geographical, and topical contours of each of the student’s three fields.
3. Three historiographic essays (one for each reading list), between 5,000 and 10,000 words in length, including notes.
4. Research papers – at least one, the equivalent in scope and length of a research-based journal article.
5. Book reviews – at least two, approximately 300-800 words, along the lines of those published in scholarly journals.
6. One grant proposal.
7. Teaching material including at least two syllabi.
8. An intellectual and professional agenda – this is a statement of no more than 1,000 words explaining how the student plans to continue to build on their portfolio through future research and through other initiatives that might open a variety of future career paths.

In addition to the required material listed above, portfolio committee members may ask a student to write synthetic essays displaying a more comprehensive view of a field than is typically evidenced in papers written for more narrowly focused courses or independent studies. Students will not be required to produce more than two such essays, of no more than 3,000 words each, for any one field.
Students may also include an appendix of additional material such as conference papers, public history contributions, or descriptions of digital history projects. The appendix may also include material produced in course work or elsewhere on topics outside the geographical or temporal parameters of the fields.

Given that the student will be providing drafts to each committee member over the course of the fall, it is expected that in most cases the final portfolio submitted in December will meet with the approval of all three committee members, at which point the oral examination will be scheduled. If, however, a committee member is not satisfied with any piece of the portfolio after it is submitted in December, that committee member will communicate with the student and the student’s adviser to explain what needs to be changed. If a committee member asks for changes to the portfolio that the student is not able to complete to the satisfaction of that committee member, the committee member will write a short note describing the impasse and will provide that note to the student’s adviser and to the DGS. If the adviser and the DGS are not able to help the student revise the portfolio to the satisfaction of the committee member, the DGS will appoint another faculty member as an external reader to assess the portfolio and to provide another opinion. If the student’s adviser, the DGS, and the external reader agree that the student has completed a satisfactory portfolio, the student will advance to the oral examination.

**Oral Examination**

Once the portfolio has been approved, the oral examination will be scheduled. The oral examination will be of two to three hours in length, and will generally occur within 1 month of the approval of the portfolio.

The oral examination will be open to the faculty as a whole, and notice of its date, time, and location shall be posted in the department at least one week in advance. The student’s adviser will preside at the oral examination. Each examiner is allowed at least thirty minutes to examine the student and to ask questions related to the student’s portfolio and reading lists.

After all examiners have completed their questioning, the student and any faculty visitors are asked to leave the room. At this point, the head of the Committee polls the other members of the Committee to determine the outcome of the examination as a whole. The following outcomes are possible: High Pass; Pass; Failure in one field; Failure in two or more fields. The student is informed of the Committee's decision as soon as possible.

If the outcome of the Oral Exam is a High Pass or a Pass, then the student should proceed at once to the completion of the required Dissertation Prospectus. If the outcome of the Oral Exam is Failure on one or more fields, then the examiners, in conjunction with the Director of Graduate Studies and the student's advisor, determine a subsequent course of action for the student. This course of action may include retaking the examination in one or more fields in a timeframe to be determined by the Faculty Field Examiner and the Director of Graduate Studies. Students who have failed the oral exam will be allowed one more opportunity to pass. Failure in a second round of exams will normally constitute sufficient grounds for a student’s exclusion from the program.

**The Dissertation Prospectus**

A dissertation proposal, in the form of a prospectus, should normally be submitted for approval to a dissertation committee no later than the sixth semester of study for full-time students (and, in no event, later than one semester after passing the Oral Exam).

The prospectus is essentially a statement of intention. Its purpose is to outline in some detail the theoretical,
methodological, and substantive dimensions of the dissertation, including the procedures and data sources (archival or otherwise) to be used and a rationale for the structure selected. It represents a highly informed and thoughtful plan about what the dissertation will be and how it will be accomplished.

Students create a prospectus in consultation with their dissertation advisor and members of their dissertation committee. Committees will consist of the advisor and two or three other faculty members, usually chosen from the History faculty at CMU. Occasionally, faculty from other departments at CMU, faculty from other universities, or external experts may be among these members.

Faculty who participated in a particular student’s Graduate Portfolio process are often asked to serve on that student’s dissertation committee. But the student should not assume that portfolio committee members will also serve as dissertation committee members. It is the responsibility of the student to consult with the dissertation advisor regarding the make-up of the dissertation committee, and to ask faculty members if they are willing and able to serve on the dissertation committee.

As the prospectus nears completion, each candidate, in consultation with the major advisor and the Director of Graduate Studies, should schedule a date for the oral defense of the prospectus. The prospectus must include a one-paragraph abstract that can be circulated to interested faculty and students for comment. One purpose of the defense is to demonstrate the candidate’s ability to translate the proposed historical research into an approved dissertation. Another is to focus collegial attention on the student’s research to the end of improving both the research process and the final product. The defense is NOT an examination, but rather a discussion with the student’s dissertation committee plus any other interested faculty and, where acceptable to the candidate, interested students. The prospectus is then accepted, rejected, or the student is given one more opportunity to make modifications prior to formal acceptance. Once the prospectus is accepted, as evidenced by the submission of the Dissertation Prospectus Approval Form bearing the signatures of the student’s advisor and the other dissertation prospectus committee members, the student officially enters Ph.D. candidacy (i.e., is “ABD”).

Approved prospectuses are kept on file with the Department and may be consulted by students and faculty.

The Dissertation

We cannot overstate the importance of producing a high-quality doctoral dissertation in a student’s professional development. It is the most important part of the doctoral program and represents the culmination of the entire course of study.

After approval of the prospectus, each student must complete a dissertation that is formally approved by his or her dissertation committee within ten years of initial matriculation. The style of the dissertation must conform to the Department’s guidelines (available from the Graduate Coordinator) and the Chicago Manual of Style. Additional university regulations for the submission of dissertations can be found at:
https://www.library.cmu.edu/datapub/sc/dissertation/submitting. Dissertations that do not adhere to these guidelines will not be accepted.

Satisfactory Progress and Formal Progress Review

In addition to fulfilling general registration and course requirements, students must make satisfactory progress toward their degrees. The Graduate Studies Committee will normally conduct a formal progress review at the end of each year for every student. The Graduate Director may, however, at any time solicit information from advisors about the progress of their advisees. Students will be informed in writing about their progress at the
end of each academic year or more frequently if circumstances warrant. Students may formally appeal the Graduate Studies Committee’s evaluation to the Department Head.

*Departmental evaluations encompass faculty assessments of student work in general.* Criteria for these assessments include oral and written communication skills, conceptual sophistication, analytical skills, research capabilities, grasp of historiography, ability to think independently, teaching quality, and consistency of performance in the program, among others.

The Carnegie Mellon grade scale is as follows: A+ = 4.33 points; A = 4.0 points; A- = 3.67 points; B+ = 3.33 points; B = 3.0 points; B- = 2.67 points; C+ = 2.33 points; C = 2.0 points; C- = 1.67 points; D+ = 1.33 points; D = 1.0 points; R = Failure

*Graduate students in course work should maintain an average of "B" (3.0) or better for all course work in the first two semesters of residence. After the first year, Ph.D. students must maintain at least a 3.33 average or better for all formal courses.* These grades are absolute minima for receipt of the master's and doctoral degrees, but they do not guarantee continuation in the program. Students receiving course grades of B or lower should discuss their performance with their instructors. Students whose grade reports contain more than one B (this includes B+s) should take this as a warning sign and consider initiating a discussion on progress with the Director of Graduate Studies.

Incomplete grades: University policy expects that students will complete a course during the academic semester in which the course is taken. However, if the instructor agrees, a grade of "I" (incomplete) may be given when a student, for reasons beyond her or his control, has been unable to complete the work of a course, but the work completed to date is of passing quality and the grade of incomplete provides no undue advantage to that student over other students. In awarding an "I" grade, an instructor must specify the requirements for completing the work and designate a default letter grade in case the student does not follow through. Students must complete the required course work no later than the end of the following academic semester or sooner if required by the instructor. The instructor must record the permanent grade by the last day of the examination period of that following semester, or the Registrar will administratively assign the default grade. Graduate students should also note that the Graduate Studies Committee will be unfavorably impressed by students having unresolved incompletes or more than one incomplete in a semester. Students carrying Incompletes may register as prospectus candidates for one semester. During that semester, however, students must satisfy all Incompletes. Otherwise, they may be required to withdraw from the program. In such an event, the students would lose their continuous enrollment status, meaning the loss of health insurance, and like benefits, and would be required to begin repayment of student loans. The loss of continuous enrollment status may be especially consequential for foreign students, since if they lose their status as graduate students, immigration laws may require them to leave the country.

The entire Graduate Student grading policy can be found at [http://www.cmu.edu/policies/student-and-student-life/grading.html](http://www.cmu.edu/policies/student-and-student-life/grading.html)

*Beyond the grades received in course, the Department’s criteria for satisfactory progress requires that full-time Ph.D. students must meet a range of specific requirements in a timely manner:*

- completing all course work at an acceptable grade level no later than the fifth semester of residence;
- completing and passing the Graduate Portfolio and Oral Examination within the third year of residence;
• successfully defending a dissertation prospectus within the third year or within one semester of completing and passing the Graduate Portfolio and Oral Examination (thus gaining ABD status);

• for students not seeking financial aid from the Department of History or the University beyond the period specified in their initial letters of appointment, completing an acceptable doctoral dissertation within ten years of matriculation;

• for students seeking financial aid from the Department of History or the University beyond the period specified in their initial letters of appointment, producing demonstrable evidence of research achievement and writing following the dissertation prospectus defense. Students should plan on taking their research semester in the fourth year, and should complete the bulk of their archival, statistical, and/or library source research during their fourth year. They should write up the results of their research in years five and six, and finish the dissertation by the end of the second semester of year six.

After the student has completed and defended the Graduate Portfolio, the student’s major advisor is the principal and primary faculty member who consults with the student, receives information, and advises the Graduate Studies Committee about the student’s progress. In keeping with this role, the student’s advisor is responsible for timely and accurate reporting to the Graduate Studies Committee on the student’s progress. In addition, however, the student is required each spring to fill out a yearly progress report (form available from and due to the Graduate Coordinator).

The Graduate Studies Committee will, in general, recommend to the Department Head for financial aid beyond the period specified in their initial letters of appointment only those students who are making satisfactory progress in research and, for those students who are twelve months beyond the defense of their dissertation prospectus, only those who have begun to produce finished chapters (or drafts of chapters) on a regular basis. The GSC’s minimal standard for the production of “finished chapters (or drafts of chapters) on a regular basis” is three chapters per year.

Departmental Probation Policy: Students whose work is judged acceptable for course credit but persistently below the level demanded of a practicing member of the historical profession will be notified of this deficiency. This deficiency must be corrected if the student is to remain in the program. If the deficiency is not corrected, or is at any time judged severe, the student will be dropped from the program as early as the end of the first semester of study and as late as the Dissertation Prospectus Defense. For students in their fifth and sixth years: Any student in the fifth or sixth year who fails to submit a completed chapter draft or its equivalent to his/her advisor for more than one semester will be considered on academic probation. Students who fail to bring themselves into compliance with the criteria of “satisfactory progress” at the end of the semester in which they have been placed on probation will normally be dropped from funding.

Grading Appeals

Process for Appealing Final Grades https://www.cmu.edu/graduate/policies/appeal-grievance-procedures.html

Final grades will be changed only in exceptional circumstances and only with the approval of the instructor and the department, unit or program. Grading is a matter of sound discretion of the instructor and final grades are rarely changed without the consent of the instructor who assigned the grade. The following circumstances are
the unusual exceptions that may warrant a grade appeal: (a) the final grade assigned for a course is based on
manifest error (e.g. a clear error such as arithmetic error in computing a grade or failure to grade one of the
answers on an exam), or (b) the faculty or staff member who assigned the grade did so in violation of a
University policy.

**Academic Integrity Policy**

Please review the University Policy on Academic Integrity [https://www.cmu.edu/policies/student-and-student-
life/academic-integrity.html](https://www.cmu.edu/policies/student-and-student-life/academic-integrity.html). The policy includes the University expectations around academic integrity and provides definitions of cheating, plagiarism, and unauthorized assistance.

A review of the University’s Academic Disciplinary Actions procedures [https://www.cmu.edu/student-
affairs/theword/academic-discipline/index.html](https://www.cmu.edu/student-affairs/theword/academic-discipline/index.html) is also recommended. These procedures outline the process for investigating, reporting, and adjudicating violations of the University Policy on Academic Integrity. The procedures also outline the appeal process.

**Transfer Courses, PCHE Courses, Cross-Registration**

Carnegie Mellon University offers students the opportunity to take courses for credit through a cross-registration
program (Pittsburgh Council on Higher Education (PCHE)) and through the receipt of transfer credit from other
accredited institutions. The Carnegie Mellon University transcript will include information on such courses as
follows: Carnegie Mellon courses and courses taken through the university’s cross-registration program will
have grades recorded on the transcript and be factored into the QPA. All other courses will be recorded on this
transcript indicating where the course was taken, but without grade. Such courses will not be taken into account
for academic actions, honors or QPA calculations. (Note: suspended students may take courses elsewhere;
however, they may receive transfer credit only if allowed by college policies and by explicit permission of the
Graduate Studies Committee.) For more information, see [https://www.cmu.edu/policies/student-and-student-

While the Department of History’s PhD program does allow students to take courses at the University of
Pittsburgh and other PCHE members, we do not accept transfer credits earned before a student entered our PhD
program.

**Internship**

Students have the option of completing a part-time internship. Internships are not required. Internships can be
for a full-year or for a semester. These internships are normally completed in the fifth or sixth years. If a student
opts to not teach for one semester while completing an internship, the department will cover the costs of the
student’s tuition, fees, and health insurance, and will provide the usual stipend. If a student secures a year-long
internship, it is expected that the student will teach for at least one semester during that year. But if the student
opts to not teach for either semester, the department will cover the costs of the student’s tuition, fees, and health
insurance, and will provide the usual stipend for one semester. In the second semester, the department will cover
the costs of the student’s tuition, fees, and health insurance, but will not provide a stipend. The graduate director
will help students identify and secure internships, but the department cannot guarantee an internship nor the
availability of any particular internship.
Full-time/Part-time Status Requirements

Note that 36 units is required for students to be full time. In rare instances, with the approval of the Director of Graduate Studies, students may enroll on a part-time basis (e.g., one or two courses per semester). Part-time students are not eligible for stipendary aid. Part-time students are expected to meet similar requirements to those outlined above. However, given the different rhythm of their studies, appropriate adjustments in timing will be made. International students must be in Full-time status for all semesters and need to consult the Office of International Education if they may not fulfill this requirement.

Department Registration Process/Procedures

Except for the Fall Semester of their first year, students are responsible for registering for courses for the upcoming semester. Registration is completed via this website: https://www.cmu.edu/hub/ and is typically completed one semester in advance (during Fall semester for the following Spring semester, for example). The Graduate Coordinator or the Graduate Director will communicate with all students before the registration process begins in order to clarify the required courses for the upcoming semester and to provide suggestions for electives. In addition, it is recommended that all students discuss their planned courses with their advisers and with other students. Students are encouraged to reach out to the Graduate Coordinator or the Graduate Director with any questions about the registration process. Generally, questions about how to register should be directed to the Graduate Coordinator. Questions about which courses to register for should be directed to the Graduate Director.

After successful completion of course requirements (usually after four semesters) students register for the course, "Prospectus," during their third year of residence. They are expected to meet the requirements for both the Graduate Portfolio and the Dissertation Prospectus during the third year. After successful defense of the Dissertation Prospectus, students register for the course, "Dissertation."

Drop/Add/Withdraw Procedures

Students taking undergraduate and Master’s level courses must follow the procedures and deadlines for adding, dropping, or withdrawing from courses as identified on the academic calendar. Information can be found at https://www.cmu.edu/hub/registrar/course-changes/index.html There is a separate calendar for doctoral level courses.

Audit

Students wishing to audit a course must fill in the audit form, secure the instructor's signature, and send the form to the Registrar. There is a fee for auditing if the student is not registered full time. If the student is enrolled in a course for credit and decides later to audit it, he or she must change the official registration to an audit status.

ABD Status and Statute of Limitation Policies

As outlined in the Doctoral Student Status Policy, https://www.cmu.edu/policies/student-and-student-life/doctoral-student-status.html, students will complete all requirements for the Ph.D. degree within a maximum of ten years from original matriculation as a doctoral student. Once this time-to-degree limit has lapsed, the person may resume work towards a doctoral degree only if newly admitted to a currently offered doctoral degree program under criteria determined by that program.
University policy states that upon completion of all formal degree requirements other than the dissertation, a student attains ABD (all-but-dissertation) status. In the Department of History, ABD status is attained upon approval of the prospectus. ABD students must complete their remaining degree requirements (that is, they must complete an approved dissertation) within ten years of matriculation. Students who fail to meet this deadline must reapply for admission to a currently offered degree program. Extraordinary circumstances might cause the Department to seek an extension of candidacy. Such an extension must receive the final approval of the Dean of the Dietrich College of Humanities and Social Sciences.

All doctoral candidates are required to be ABD In Residence in the semester in which their PhD is to be conferred, and are required to pay tuition on five units of study. The department cannot pay these fees. If, in their graduating semester, the candidate is employed by the Department of History as a teaching or research assistant, this tuition requirement is waived.

ABD students may list themselves ABD In Absentia and pay required university fees (currently only the Technology Fee) if they have been enrolled as full-time students for at least two academic years. When a student is ABD In absentia the University cannot certify them as students for immigration or loan purposes. The University's policies on ABD In Residence and ABD In Absentia students are detailed at the following website: https://www.cmu.edu/policies/student-and-student-life/doctoral-student-status.html

**Procedures for Leave of Absence or Withdrawal**

A student may leave Carnegie Mellon by either taking a leave of absence (leaving the university temporarily with the firm and stated intention of returning) or by withdrawing from the university (leaving the university with no intention of returning). Students who wish to leave the program temporarily must complete a **Leave of Absence form** specifying the reasons for leave and indicating the expected date of return. In the event of a Leave of Absence, all financial aid and all other benefits are discontinued. Students who wish to withdraw permanently from the program must complete a **Withdrawal form**.

Students who wish to return to the program from a Leave of Absence must contact the Director of Graduate Studies in writing of this intention no later than the last day of the semester preceding the intended semester of return. The student must then file a **Petition to Return from Leave of Absence form** with the Registrar at least thirty days prior to the start of the intended semester of return. If the student desires financial assistance upon return, all financial aid applications are due six months before the expected date of return.

More information on the Leave of Absence and Withdrawal process is found here: https://www.cmu.edu/hub/registrar/leaves-and-withdrawals/

**Department Financial Support**

**General**

The Department offers several types of financial aid. These awards are designed to assist students in various phases of their graduate study. Although a variety of criteria are used in granting or maintaining the awards, *their continuance always depends on satisfactory progress in the program*. The Graduate Studies Committee evaluates and makes recommendations to the Department Head on all financial aid matters.
Types of Aid

Grants in Aid of Study: Grants in aid are awarded to new students whose prior academic records are extraordinarily strong. They cover yearly tuition and pay a monthly stipend. The terms of offer and duration of the Department’s grants in aid for each student accepted into the Graduate Program are spelled out in the student’s letter of admission into the program. The History Department considers this letter of admission into the program as a contract once the student provides a formal letter of acceptance of admission into the program and of the terms of offer for financial aid.

The Department relies on three types of grants in aid: fellowships (in which no teaching or research duties are required), teaching assistantships (in which teaching and/or grading duties are required), and research assistantships (in which research duties are required).

Depending on the number of undergraduates in introductory courses, qualified graduate students are employed as Teaching Assistants (TAs) and serve as section instructors under the supervision of course professors (e.g., in "Global Histories"). The Director of Graduate Studies will evaluate all TA assignments on the basis of specific criteria, including previous teaching experience and training, academic qualifications, and satisfactory performance in our program. Teaching Assistants must have taken and passed the Department's Seminar in Instruction. The Head of the Department will make final TA assignments in consultation with the Director of Graduate Studies and the Director of Undergraduate Studies. These selections will be consistent with the teaching needs of the Department and will take into consideration a fair distribution of appointments among qualified applicants.

Funding for Research Associated with the Research Seminar (79-701 and 79-702)

As department funds permit, the department provides financial support for student research carried out in conjunction with the Research Seminar.

Health Insurance and Fees

In addition to covering tuition, the department normally pays the technology fee for students receiving financial aid. Students are responsible for paying any applicable activities and transportation fees. If students elect to enroll in Carnegie Mellon University’s Student Health Insurance Plan (SHIP), the University will cover 50 percent of the premium of cost for your individual coverage under SHIP. While students will have the opportunity to purchase partner, spouse or dependent coverage under the SHIP plan, the University’s support will be limited to 50 percent of the individual coverage amount. If students wish to elect the required health insurance coverage under an alternate plan, they will not be eligible for the University support referenced here. More information is found here: https://www.cmu.edu/health-services/student-insurance/index.html.

Tax Implications

The receipt of funding from the university may carry tax implications. The department does not provide guidance regarding any potential tax implications. Students may wish to consult the IRS (https://www.irs.gov/individuals/students) or a tax adviser. Additionally, international students may wish to consult https://www.cmu.edu/oie/settling-in-guide/tax-information.html.

Other Departmental and University Funding for Research and Travel

All graduate students in good academic standing are eligible to apply for small research/travel grants through the
Graduate Studies Committee of the History Department.

The Committee gives preference to graduate students who are ABD, who are making good progress in research and writing, and who can demonstrate prior efforts to get university (e.g., Graduate Small project Help, or GuSH) and/or external grants: www.cmu.edu/graduate/professional-development/research-funding.

University funds are also available to help pay costs of presenting papers at professional conferences: www.cmu.edu/graduate/professional-development/conference-funding

You may use Department grants to support research trips (domestic and international); expenses associated with presenting a paper at a professional conference; and miscellaneous research-related expenses (fees to enter archives, digital reproductions, photocopies, etc.).

Department grants are intended to supplement the paid, non-teaching semester(s) provided to each graduate student upon successful defense of her/his dissertation prospectus. You should plan to complete the bulk of your research during the non-teaching semester(s).

Procedure for Applying for Departmental Funds:

1. Discuss the research/travel for which you are seeking a grant and your proposed budget with your faculty advisor.
2. Complete the short application form available from the Graduate Director or Graduate Coordinator and submit it to the former via email.

Review of applications by the Graduate Studies Committee:

The Graduate Studies Committee (faculty only) reviews applications for Department research funds on a rolling basis throughout the year. The Graduate Director makes decisions about grant applications up to $500. The entire committee will review all requests for $501 and above. In the event the committee is evenly divided, the Graduate Director will make the final decision.

GSA/Provost Office GuSH Grants

GuSH Research Funding is a source of small research grant funds provided by GSA and the Provost’s Office and managed by the Graduate Education Office. Students can find more information about the application process and deadlines at: https://www.cmu.edu/graduate/professional-development/research-funding/index.html.

Conference Funding

Conference Funding is a funding application process provided by GSA and the Provost’s Office for students, student work groups or groups to attend a conference, whether as a participant or as a presenter. The process is managed by the Graduate Education Office. Students can find more information about the application process and deadlines at: https://www.cmu.edu/graduate/professional-development/index.html.

University Financial Aid

Graduate students should consult the graduate student financial aid information found on The HUB website: https://www.cmu.edu/sfs/financial-aid/graduate/index.html. Students will find the Graduate Financial Aid Guide, information about funding options and how to apply for financial aid and other helpful links.
Emergency Funding

Graduate students who find themselves in need of immediate funds for emergency situations should contact the Office of the Dean of Student Affairs (see Appendix A), www.cmu.edu/student-affairs/index.html, to inquire about an Emergency Student Loan.

Change in Financial Support

Students will be informed in writing with at least sixty days’ notice of any unexpected change in financial support, normally alongside a notice of failure to make satisfactory progress. This does not apply to expected changes in financial support as outlined in the department’s letter of admission to students. The Graduate Studies Committee and Department Head make an effort, when feasible and if departmental funds exist, to provide notice of any change in financial support prior to a final semester of support.

Funding Sources Beyond the University -- External Grants

Your advisor should be the major source of information and guidance about the availability of external monies to support research and when to apply for them. Those students who are members of the American Historical Association can consult the Association’s online directory of grants, fellowships, and prizes: www.historians.org/awards-and-grants

The American Historical Association’s publications also contains information about grants and deadlines for them.

Graduate students are strongly encouraged to apply for outside funding from foundations, government agencies, and other sources, especially after they have completed their prospectuses. Students in the Department have been successful in obtaining dissertation support from the Mellon, Fulbright, Woodrow Wilson, Guggenheim, National Science, and Spencer Foundation, Chateaubriand and American Association of University Women fellowships.

Funding Implications of External Grants

(This section does not apply to small grants that cover only travel to collections or to present conference papers.)

External grants considered here fall into one of two categories – those used to fund one or more research semesters, and those that are designed to fund research beyond the research semester(s).

Grants obtained to fund research semester(s): Students who obtain external grants to help fund themselves during one or more research semesters will receive their stipends in addition to the external grant money. The department will also pay tuition, health care and fees.

Grants obtained to fund research beyond the research semester(s): Students who obtain external grants beyond the research semester(s) will be considered differently according to the amount of the grant:

a. If the grant is greater than or equal to the amount of the stipend, the department will pay health insurance, tuition and fees, and the student will be relieved of teaching duties during the term of the grant.

b. If the grant is less than the stipend but greater than $5,000 for one semester, the department will make up the difference between the amount of the grant and the amount of the stipend. The department
outside employment, although international students must contact the Office of International Education regarding the ability to hold employment. Students receiving financial support from the department are reminded that they are considered “full time” students, however, and are expected to complete coursework, fulfill teaching obligations, etc., accordingly. Further, any such employment, aside from the department’s Internship program, can be held by students receiving financial support from the department only to the extent to which it does not interfere with the completion of satisfactory progress towards the degree.

Additional Department and University Policies/Protocols

Advising

The Director of Graduate Studies serves as liaison between graduate students and the larger faculty and will generally handle advising for the first year of study.

Students should try to meet as many faculty members as possible during their first two years of study. By the time of completion of their second semester of study, students are strongly encouraged to select an individual advisor if not assigned one upon entry into the program. Students should also begin consulting with other faculty about prospective fields for their graduate portfolio. Students are responsible for reporting these arrangements to the Director of Graduate Studies as well as keeping her or him informed of any subsequent changes in advisory relationships. (A faculty member from another department may serve on a student’s dissertation committee with the approval of the Director of Graduate Studies.)

The advisory relationship is a very important one, for it typically implies an extensive and long-lasting relationship in which the advisor takes formal or informal responsibility for a variety of important aspects of the advisee’s professional education. Directing the dissertation is the most obvious of these, but it also includes general educational advice, career planning, active assistance in the initial (and often subsequent) job search, and other components of professional socialization.

Sometimes a student or her or his advisor may decide that it would be best for that student’s progress or well-being to change advisors. In such instances, a student should consult with the Director of Graduate Studies, who will work with the student and relevant faculty members to ensure a smooth and minimally disruptive transition to a mutually agreeable new advisor. In the event that the Director of Graduate Studies is the student's advisor, the Department Head will facilitate the change of advisor.

Graduate Studies Committee

The Graduate Studies Committee (GSC) is responsible for admitting the incoming class of graduate students, overseeing the disbursement of aid, assigning teaching assistantships and fellowships, monitoring and assessing
student progress, coordinating the graduate curriculum, awarding the Goldman Teaching Award, and other duties. The Department Head and the Director of Graduate Studies appoint the Graduate Studies Committee.

Graduate Committee/Student Representation

Two students serve as representatives of the graduate student body, which selects its representatives no later than the end of the second semester. In addition to helping the Graduate Studies Committee formulate policy recommendations, the student representatives work closely with the Director of Graduate Studies and attend regular faculty meetings. They are also responsible for planning the annual series of brown bag lunches around issues of professional development. Brown bags should be planned in consultation with the Director of Graduate Studies. Other graduate students may be invited to serve on ad hoc committees relating to the graduate or teaching programs.

Grandparent Policy

When policies are changed it is because the department believes the new rules offer an improvement, any such changes will be discussed at a meeting with the graduate students. However, students currently enrolled whose degree program is affected by a change in policy may choose to be governed by the older policy that was in place at the time of their matriculation. In case degree requirements are changed and certain courses are no longer offered, the department will try to find some compromise that allows those students to satisfy the original requirements.

The Job Search

Students should be planning for post-graduate employment throughout their time as graduate students, taking advantage of internships, teaching opportunities, informal interviews and other departmental and university resources. The department -- through the Graduate Student Brownbag series organized by the Grad Representatives -- regularly schedules seminars on job applications and job-interviewing when requested by students themselves. Students should convey their desire for such brown bags to the Grad Reps and/or Director of Graduate Studies.

Normally the student’s adviser plays a large role in preparing students for their job search, but students should be pro-active in seeking out other mentors and advisers. It is students’ responsibility to ask their advisors or otherwise consult university resources for help in drafting cover letters or resumes, selecting appropriate writing samples and other application materials, or preparing for interviews. For those seeking employment within universities, there are several resources online, including the AHA’s listings (http://careers.historians.org/jobs), the job listings of The Chronicle of Higher Education http://chronicle.com/section/Jobs/61/ and H-Net https://www.h-net.org/jobs/job_browse.php. For those seeking positions outside academia, the Career and Professional Development Center at Carnegie Mellon -- while designed mainly to advise undergraduates -- also offers one-on-one meetings to advise graduate students on their job searches. Their main website is: www.cmu.edu/career. The advisor who works with our graduate students is Kristin Staunton. Relevant resources also include The Versatile PhD [https://versatilephd.com], Karen Kelsky, The Professor is In (book and blog), Susan Basalla and Maggie Debelius, What Are You Going To Do With That? and Joseph Fruscione and Kelly J. Baker, eds, Succeeding Outside the Academy.

English-Speaking proficiency requirements for TAs who are non-native English speakers

Evaluation and Certification of English Fluency for Instructors:

21
Graduate students are required to have a certain level of fluency in English before they can instruct in Pennsylvania, as required by the English Fluency in Higher Education Act of 1990. Through this Act, all institutions of higher education in the state are required to evaluate and certify the English fluency of all instructional personnel, including teaching assistants and interns. The full university policy can be reviewed at: https://www.cmu.edu/policies/faculty/evaluation-certification-english-fluency-instructors.html. The fluency of all instructional personnel will be rated by Language Support in the Student Academic Success Center to determine what level of responsibility the student can TA.

In addition to administering the International Teaching Assistant (ITA) Test (a mandatory screening test for any non-native speaker of English), Language Support in the Student Academic Success Center helps teaching assistants who are non-native English speakers develop fluency and cultural understanding to teach successfully at Carnegie Mellon. Visit the Student Academic Success Center website for additional information: https://www.cmu.edu/student-success/

**Administrative Records**

It is the students' responsibility to keep their graduate files up to date. Inform the Graduate Coordinator of any changes in status, including changes in telephone numbers, addresses, removal of incomplete grades, and the like.

**Employment Eligibility Verification**

**If students are receiving a stipend, are a TA or are planning to have a position with CMU then Employment Eligibility Verification is Required**

Form I-9 must be completed within 3 business days of beginning work for any type of compensation (stipend or employment). Additional details are highlighted below.

To ensure compliance with federal law, Carnegie Mellon University maintains the [Employment Eligibility Verification (I-9) Policy][1] covering the university’s I-9 and E-Verify requirements:

- Every individual receiving a stipend from CMU or employed by CMU must comply with the I-9 Policy by completing the Form I-9 within three business days following the first day of stipend start date/employment.
- Individuals who expect to work on a federally funded project are further responsible for submitting an E-Verify Processing Request Form to the Office of Human Resources if required.

For more information, please see CMU’s [Guidance for Completing the Form I-9 and E-Verify Requirements at CMU][2], or visit the Human Resources Service website to [learn more about Form I-9 and E-Verify][3] and to [schedule an appointment to complete the Form I-9][4].

**International Students**

International students are required to make full use of the services offered by CMU's Office of International Education [http://www.cmu.edu/oie/](http://www.cmu.edu/oie/). International students must consult with the Office of International Education to check eligibility before seeking an internship/co-op or signing an offer contract.
Vacation & Time-Off

Students with graduate assistantships are expected to continue their research during academic breaks (including summer months) with the exception of official University holidays. Paid time off for personal business or vacations generally is not included as part of a graduate’s financial support.

Summary of Graduate Student Appeal and Grievance Procedures
https://www.cmu.edu/graduate/policies/appeal-grievance-procedures.html

Graduate students will find the Summary of Graduate Student Appeal and Grievance Procedures on the Graduate Education Resource webpage. This document summarizes processes available to graduate students who seek review of academic and non-academic issues. Generally, graduate students are expected to seek informal resolution of all concerns within the applicable department, unit or program before invoking formal processes. When an informal resolution cannot be reached, however, a graduate student who seeks further review of the matter is to follow the formal procedures outlined here. These appeal and grievance procedures shall apply to students in all graduate programs of the University. Students should refer to the department specific information in this handbook for department and college information about the administration and academic policies of the program.

Safeguarding Educational Equity
Policy Against Sexual Harassment and Sexual Assault

The University prohibits sex-based discrimination, sexual harassment, sexual assault, dating/ domestic violence and stalking. The University also prohibits retaliation against individuals who bring forward such concerns or allegations in good faith. The policy can be viewed in its entirety at: http://www.cmu.edu/policies/documents/SA_SH.htm. If you have been impacted by any of these issues, you are encouraged to make contact with any of the following resources:

- Office of Title IX Initiatives, http://www.cmu.edu/title-ix/, 412-268-7125, title@cmu.edu
- University Police, 412-268-2323
- University Health Services, 412-268-2157
- Counseling & Psychological Services, 412-268-2922

Additional resources and information can be found at: https://www.cmu.edu/title-ix/resources-and-information/resources.html.

Maternity Accommodation Protocol
https://www.cmu.edu/graduate/programs-services/maternity-accommodation-protocol.html

Students whose anticipated delivery date is during the course of the semester may consider taking time away from their coursework and/or research responsibilities. All female students who give birth to a child while engaged in coursework or research are eligible to take either a short-term absence or formal leave of absence. Students in course work should consider either working with their course instructor to receive incomplete grades, or elect to drop to part-time status or to take a semester leave of absence. Students engaged in research must work with their faculty to develop plans for the research for the time they are away.

Students are encouraged to consult with relevant university faculty and staff as soon as possible as they begin
making plans regarding time away. Students must contact the Office of the Dean of Student Affairs to register for Maternity Accommodations. Students will complete an information form and meet with a member of the Dean’s Office staff to determine resources and procedures appropriate for the individual student. Planning for the student’s discussion with her academic contact(s) (advisor, associate dean, etc.) may be reviewed during this meeting. Doctoral students who receive an academic stipend funded by Carnegie Mellon are eligible to continue to receive stipend funding for up to six (6) weeks during a Short-Term Maternity Accommodation or a Formal Leave of Absence. Continued academic stipend funding may be extended by two (2) weeks, for a total of eight (8) weeks, if an absence longer than six weeks is medically necessary. To receive this support students must be registered with the Office of the Dean of Student Affairs for a Maternity Accommodation.

Consensual Intimate Relationship Policy Regarding Undergraduate Students

This policy addresses the circumstances in which romantic, sexual or amorous relationships/interactions with undergraduate students, even if consensual, are inappropriate and prohibited. The purpose of this policy is to assure healthy professional relationships. This policy is not intended to discourage consensual intimate relationships unless there is a conflicting professional relationship in which one party has authority over the other as in the policy.

Withdrawal of a Degree
The university reserves the right to withdraw a degree even though it has been granted should there be discovery that the work upon which it was based or the academic records in support of it had been falsified. In such a case, the degree will be withdrawn promptly upon discovery of the falsification. The complete reference to this university policy is available at: https://www.cmu.edu/policies/student-and-student-life/withdrawal-of-a-degree.html.
Appendix A
2020-2021
Highlighted University Resources for Graduate Students
and
The WORD, Student Handbook

Key Offices for Graduate Student Support

Graduate Education Office
www.cmu.edu/graduate; grad-ed@cmu.edu
The Graduate Education Office provides central support for all Master’s and Doctoral students with a focus on their academic experience at Carnegie Mellon. The Graduate Education Office serves as a hub for connecting graduate students to relevant campus experts and resources to support their academic success, understanding of university level policies and practices and to assist them in advancing their personal and professional development.

Examples of resources offered through the Graduate Education Office include- but are not limited to:

- Website with university resources, contact information for CMU programs and services, calendar of events related to graduate students
- Bi-monthly email to all graduate students with information on activities, resources and opportunities
- Professional Development Seminars and Workshops
- GSA/Provost Conference Funding Grants
- GSA/Provo Small Research Grants (GuSH)
- Consultations on issues related to the graduate student experience

The Graduate Education Office also works with the colleges and departments by informing and assisting in developing policy and procedures relevant to graduate students and working with departments on issues related to graduate students. Additionally we partner with many other offices and organizations, such as the Graduate Student Assembly, to support the holistic graduate student educational experience.

Office of the Dean of Students
https://www.cmu.edu/student-affairs/dean

The Office of the Dean of Students provides central leadership of the metacurricular experience at Carnegie Mellon including the coordination of student support. Vice President of Student Affairs and Dean of Students Gina Casalegno leads the Division of Student Affairs which includes the offices and departments listed below (not an exhaustive list).

Graduate students will find the enrollment information for Domestic Partner Registration and Maternity Accommodations in the Office of the Dean of Students or on their website. This Office also manages the Emergency Student Loan (ESLs) process. Emergency Student Loans are made available through generous gifts of alumni and friends of the university. The Emergency Student Loan is an interest-free, emergency-based loan repayable to the university within 30 days. Loans are available to enrolled students for academic supplies, medication, food or other expenses not able to be met due to unforeseeable circumstances.

Additional resources for graduate students include College Liaisons and the Student Support Resources team.
College Liaisons are senior members of the Division of Student Affairs who work with departments and colleges addressing student concerns across a wide range of issues. College Liaisons are identified on the student SIO page in the Important Contacts list. The Student Support Resources team offers an additional level of support for students who are navigating any of a wide range of life events. Student Support Resources staff members work in partnership with campus and community resources to provide coordination of care and support appropriate to each student’s situation.

The Division of Student Affairs includes (not an exhaustive list):

- Athletics, Physical Education and Recreation
- Career and Professional Development Center (CPDC)
- Center for Student Diversity and Inclusion
- Cohon University Center
- Counseling & Psychological Services (CaPS)
- Dining Services
- Office of Community Standards and Integrity (OCST)
- Office of Student Leadership, Involvement, and Civic Engagement (SLICE)
- University Health Services (UHS)
- Wellness Initiatives

Center for Student Diversity & Inclusion

https://www.cmu.edu/student-diversity/

Diversity and inclusion have a singular place among the values of Carnegie Mellon University. The Center for Student Diversity & Inclusion actively cultivates a strong, diverse and inclusive community capable of living out these values and advancing research, creativity, learning and development that changes the world.

The Center offers resources to enhance an inclusive and transformative student experience in dimensions such as access, success, campus climate and intergroup dialogue. Additionally, the Center supports and connects historically underrepresented students and those who are first in their family to attend college in a setting where students’ differences and talents are appreciated and reinforced, both at the graduate and undergraduate level. Initiatives coordinated by the Center include, but are not limited to:

- First generation/first in family to attend college programs
- LGBTQ+ Initiatives
- Race and ethnically-focused programs, including Inter-University Graduate Students of Color Series (SOC) and PhD SOC Network
- Women’s empowerment programs, including Graduate Women’s Gatherings (GWGs)
- Transgender and non-binary student programs

Assistance for Individuals with Disabilities

http://www.cmu.edu/disability-resources/

The Office of Disability Resources at Carnegie Mellon University has a continued mission to provide physical, digital, and programmatic access to ensure that students with disabilities have equal access to their educational experience. We work to ensure that qualified individuals receive reasonable accommodations as guaranteed
by the Americans with Disabilities Act (ADA) and Section 504 of the Rehabilitation Act of 1973. Students who would like to receive accommodations can begin the process through Disability Resources’ secure online portal or email access@andrew.cmu.edu to begin the interactive accommodation process.

Students with physical, sensory, cognitive, or emotional disabilities are encouraged to self-identify with the Office of Disability Resources and request needed accommodations. Any questions about the process can be directed to access@andrew.cmu.edu, or call (412) 268-6121.

Eberly Center for Teaching Excellence & Educational Innovation
www.cmu.edu/teaching
We offer a wide variety of confidential, consultation services and professional development programs to support graduate students as teaching assistants or instructors of record during their time at Carnegie Mellon University and as future faculty members at other institutions. Regardless of one's current or future teaching context and duties, our goal is to disseminate evidence-based teaching strategies in ways that are accessible and actionable. Programs and services include campus-wide Graduate Student Instructor Orientation events and our Future Faculty Program, both of which are designed to help participants be effective and efficient in their teaching roles. The Eberly Center also assists departments in creating and conducting customized programs to meet the specific needs of their graduate student instructors. Specific information about Eberly Center support for graduate students is found at www.cmu.edu/teaching/graduatesupport[index.html.

Graduate Student Assembly
www.cmu.edu/stugov/gsa/index.html
The Graduate Student Assembly (GSA) is the branch of Carnegie Mellon Student Government that represents, and advocates for the diverse interests of all graduate students at CMU. GSA is composed of representatives from the different graduate programs and departments who want to improve the graduate student experience at the different levels of the university. GSA is funded by the Student Activities Fee from all graduate students. GSA passes legislation, allocates student activities funding, advocates for legislative action locally and in Washington D.C. on behalf of graduate student issues and needs, and otherwise acts on behalf of all graduate student interests. Our recent accomplishments are a testament to GSA making a difference, and steps to implementing the vision laid out by the strategic plan.
https://www.cmu.edu/stugov/gsa/About-the-GSA/Strategic-Plan.html.

GSA offers an expanding suite of social programming on and off-campus to bring graduate students from different departments together and build a sense of community. GSA is the host of the Graduate Student Lounge on the 3rd floor of the Cohon University Center- a great place to study or meet up with friends. GSA also maintains a website of graduate student resources on and off-campus. Through GSA’s continued funding for professional development and research conferences, the GSA/Provost Conference Funding Program and GSA/Provost GuSH Research Grants are able to run, as managed by the Graduate Education Office. As we move forward, GSA will continue to rely on your feedback to improve the graduate student experience at CMU. Feel free to contact us at <gsa@cmu.edu> to get involved, stop by our office in the Cohon University Center Room 304 or become a representative for your department.

Office of International Education (OIE)
http://www.cmu.edu/oie/
Carnegie Mellon hosts international graduate and undergraduate students who come from more than 90
countries. The Office of International Education (OIE) is the liaison to the University for all non-immigrant students and scholars, as well the repository for study abroad opportunities and advisement. OIE provides many services including: advising on personal, immigration, study abroad, academic, and social and acculturation issues; presenting programs of interest such as international career workshops, tax workshops, and cross-cultural and immigration workshops; international education and statistics on international students in the United States; posting pertinent information to students through email and the OIE website, and conducting orientation and pre-departure programs.

Veterans and Military Community
http://www.cmu.edu/veterans/
Military veterans are a vital part of the Carnegie Mellon University community. Graduate students can find information on applying for veteran education benefits, campus services, veteran’s groups at CMU, and non-educational resources through the Veterans and Military Community website. There are also links and connections to veteran resource in the Pittsburgh community. The ROTC and Veteran Affairs Coordinator can be reached at uro-vaedbenefits@andrew.cmu.edu or 412-268-8747.

Carnegie Mellon Ethics Hotline
https://www.cmu.edu/hr/resources/ethics-hotline.html
The health, safety and well-being of the university community are top priorities at Carnegie Mellon University. CMU provides a hotline that all members of the university community should use to confidentially report suspected unethical activity relating to areas below:

- Academic and Student Life
- Bias Reporting
- Environmental Health and Safety
- Financial Matters
- High-Risk Incident
- Human Resource Related
- Information Systems
- Research
- Threat of Business Interruption
- Threat of Violence or Physical Harm
- Title IX

Students, faculty and staff can anonymously file a report by calling 877-700-7050 or visiting www.reportit.net (user name: tartans; password: plaid). All submissions are reported to appropriate university personnel. The hotline is NOT an emergency service. For emergencies, call University Police at 412-268-2323.

Policy Against Retaliation
It is the policy of Carnegie Mellon University to protect from retaliation any individual who makes a good faith report of a suspected violation of any applicable law or regulation, university Policy or procedure, any contractual obligation of the university, and any report made pursuant to the Carnegie Mellon University Code of Business Ethics and Conduct.

Additional details regarding the Policy Against Retaliation are available at
Computing and Information Resources

www.cmu.edu/computing

Computing Services maintains and supports computing resources for the campus community, including the campus wired and wireless networks, printing, computer labs, file storage, email and software catalog. As members of this community, we are all responsible for the security of these shared resources. Be sure to review the Safe Computing (https://www.cmu.edu/computing/safe/) section and the University Computing Policy (https://www.cmu.edu/policies/information-technology/computing.html)

Visit the Computing Services website (https://www.cmu.edu/computing/) to learn more. For assistance the Computing Services Help Center is available at 412-268-4357 (HELP) or it-help@cmu.edu.

Student Academic Success Center

https://www.cmu.edu/student-success/

Student Academic Support Programs

Tartan Scholars

- The Tartan Scholars program was created to provide support for limited resourced students through an intentional first year undergraduate experience with the goals of enhancing the cohort’s skill and community building through a lens of self-authorship, growth mindset, and a sense of belonging. As part of the Student Academic Success Center, Tartan Scholars are invited to join the University and participate in summer initiatives and pre-orientation activities prior to their first year at the University.

- There are opportunities for graduate students to serve as accountability, learning, or development partners, workshop facilitators, and presenters. Contact Diane Hightower at ddhighto@andrew.cmu.edu for more details.

Learning Support

- Supplemental Instruction: Supplemental Instruction (SI) is an academic support model that utilizes peer-assisted study sessions. The SI program provides regularly scheduled review sessions on course materials outside the classroom. SI is a non-remedial approach to learning as the program targets high-risk courses and is available in select courses based on data related to past student performance and feasibility.

- Peer Tutoring: Weekly Tutoring Appointments are offered in a one-on-one and small group format to students from any discipline who need assistance with a course that may not be supported by our other services. Weekly appointments give students the opportunity to interact regularly with the same tutor to facilitate deeper understanding of concepts. Students can register online through the Student Academic Success website.

- Academic Coaching: Academic Coaching provides holistic one-on-one peer support and group workshops to help students find and implement their conditions for success. We assist students in
improving time management, productive habits, organization, stress management, and study skills. Students will request support through the Academic Success Center website and attend in-person meetings or meet using video and audio conferencing technology to provide all students with support.

- “Just in Time” Workshops: The Student Academic Success team is available to partner with instructors and departments to identify skills or concepts that would benefit from supplemental offerings (workshops, boot camps) to support students’ academic success and learning. We are eager to help convene and coordinate outside of the classroom skill-building opportunities that can be open to any student interested in building skill or reinforcing course concept mastery.

- Study Partners: Support for students to create and benefit from their own study groups: The Student Academic Success team assists students in forming and benefiting from peer study groups, whereby all students can reap the benefits of peer-to-peer learning, student agency, and collaboration skill development. Staff from the Student Academic Success Center will be made available to instructors and students to assist with the formation of peer-led study groups. This level of support is open to any course where the instructor requests or agrees such support is appropriate and students are interested in both leading and participating.

**Language and Cross-cultural Support**

More than 60% of graduate students at Carnegie Mellon are international students, and others are nonnative speakers of English who have attended high school or undergraduate programs in the US. Many of these students want to hone their language and cross-cultural skills for academic and professional success. Students can choose from sessions on

- how to give a strong presentation,
- writing academic emails,
- expectations and strategies for clear academic writing,
- how to talk about yourself as a professional in the U.S.,
- developing clearer pronunciation,
- using accurate grammar,
- building fluency, and more.

- Students can make an appointment with a Language Development Specialist to get individualized coaching on language or cross-cultural issues.

The Student Academic Success Center is also charged with certifying the language of International Teaching Assistants (ITAs), ensuring that nonnative English speakers have the language proficiency needed to succeed as teaching assistants in the Carnegie Mellon classroom. Students preparing to do an ITA Certification should plan to take classes offered by the language support team at the SASC from the beginning of their first semester. Start by contacting the language support team at the SASC website or attend a Language Support Orientation at the SASC or in your department.

**University Libraries**
[www.library.cmu.edu](http://www.library.cmu.edu)

The University Libraries offers a wide range of information resources and services supporting graduate students in course-work, research, teaching, and publishing. The library licenses and purchases books, journals, media and other needed materials in various formats. Library liaisons, consultants and information specialists provide in-depth and professional assistance and advice in all-things information - including locating and obtaining
specific resources, providing specialized research support, advanced training in the use and management of data. Sign up for workshops and hands-on topic-specific sessions such as data visualization with Tableau, cleaning data with OpenRefine, and getting started with Zotero. Weekly drop-in hours for Digital Humanities and for Research Data Research Management are scheduled during the academic year. Start at the library home page to find the books, journals and databases you need; to identify and reach out to the library liaison in your field; to sign up for scheduled workshops; and to connect with consultants in scholarly publishing, research data management, and digital humanities.

Research at CMU
www.cmu.edu/research/index.shtml
The primary purpose of research at the university is the advancement of knowledge in all fields in which the university is active. Research is regarded as one of the university’s major contributions to society and as an essential element in education, particularly at the graduate level and in faculty development. Research activities are governed by several university policies. Guidance and more general information is found by visiting the Research at Carnegie Mellon website.

Office of Research Integrity & Compliance
www.cmu.edu/research-compliance/index.html
The Office of Research Integrity & Compliance (ORIC) is designed to support research at Carnegie Mellon University. The staff work with researchers to ensure research is conducted with integrity and in accordance with federal and Pennsylvania regulation. ORIC assists researchers with human subject research, conflicts of interest, responsible conduct of research, export controls, and institutional animal care & use. ORIC also provides consultation, advice, and review of allegations of research misconduct.

Key Offices for Health, Wellness & Safety

Counseling & Psychological Services
https://www.cmu.edu/counseling/
Counseling & Psychological Services (CaPS) affords the opportunity for students to talk privately about academic and personal concerns in a safe, confidential setting. An initial consultation at CaPS can help clarify the nature of the concern, provide immediate support, and explore further options if needed. These may include a referral for counseling within CaPS, to another resource at Carnegie Mellon, or to another resource within the larger Pittsburgh community. CaPS also provides workshops and group sessions on mental health related topics specifically for graduate students on campus. CaPS services are provided at no cost. Appointments can be made in person, or by telephone at 412-268-2922.

Health Services
www.cmu.edu/HealthServices/
University Health Services (UHS) is staffed by physicians, advanced practice clinicians and registered nurses who provide general medical care, allergy injections, first aid, gynecological care and contraception as well as on-site pharmaceuticals. The CMU Student Insurance Plan covers most visit fees to see the physicians and advanced practice clinicians & nurse visits. Fees for prescription medications, laboratory tests, diagnostic procedures and referral to the emergency room or specialists are the student’s responsibility and students should review the UHS website and their insurance plan for detailed information about the university health
insurance requirement and fees.

UHS also has a registered dietician and health promotion specialists on staff to assist students in addressing nutrition, drug and alcohol and other healthy lifestyle issues. In addition to providing direct health care, UHS administers the Student Health Insurance Program. The Student Health Insurance plan offers a high level of coverage in a wide network of health care providers and hospitals. Appointments can be made by visiting UHS’s website, walk-in, or by telephone, 412-268-2157.

Campus Wellness
https://www.cmu.edu/wellness/
At Carnegie Mellon, we believe our individual and collective well-being is rooted in healthy connections to each other and to campus resources. The university provides a wide variety of wellness, mindfulness and connectedness initiatives and resources designed to help students thrive inside and outside the classroom. The BeWell@CMU e-newsletter seeks to be a comprehensive resource for CMU regarding all wellness-inspired events, announcements and professional and personal development opportunities. Sign up for the Be Well monthly newsletter via https://bit.ly/BeWellNewsletter or by contacting the Program Director for Student Affairs Wellness Initiatives, at alusk@andrew.cmu.edu.

Religious and Spiritual Life Initiatives (RSLI)
www.cmu.edu/student-affairs/spirituality
Carnegie Mellon is committed to the holistic growth of our students, including creating opportunities for spiritual and religious practice and exploration. We have relationships with local houses of worship from various traditions and many of these groups are members of CMU’s Council of Religious Advisors. We also offer programs and initiatives that cross traditional religious boundaries in order to increase knowledge of and appreciation for the full diversity of the worldview traditions. Our RSLI staff are here to support students across the spectrum of religious and spiritual practice and would be more than happy to help you make a connection into a community of faith during your time at CMU.

University Police
http://www.cmu.edu/police/
412-268-2323 (emergency only), 412-268-6232 (non-emergency)
The University Police Department is located at 300 South Craig Street (entrance is on Filmore Street). The department’s services include police patrols and call response, criminal investigations, fixed officer and foot officer patrols, event security, and crime prevention and education programming as well as bicycle and laptop registration. Visit the department’s website for additional information about the staff, emergency phone locations, crime prevention, lost and found, finger print services, and annual statistic reports.

Carnegie Mellon University publishes an annual campus security and fire safety report describing the university’s security, alcohol and drug, sexual assault, and fire safety policies and containing statistics about the number and type of crimes committed on the campus and the number and cause of fires in campus residence facilities during the preceding three years. Graduate students can obtain a copy by contacting the University Police Department at 412-268-6232. The annual security and fire safety report is also available online at https://www.cmu.edu/police/annualreports/.
Shuttle and Escort Services
Parking and Transportation coordinates the Shuttle Service and Escort Service provided for CMU students, faculty, and community. The Shuttle & Escort website has full information about these services, stops, routes, tracking and schedules.

The WORD
http://www.cmu.edu/student-affairs/theword//
The WORD is Carnegie Mellon University’s student on-line handbook and is considered a supplement to the department (and sometimes college) handbook. The WORD contains campus resources and opportunities, academic policy information and resources, community standards information and resources. It is designed to provide all students with the tools, guidance, and insights to help you achieve your full potential as a member of the Carnegie Mellon community. Information about the following is included in The WORD (not an exhaustive list) and graduate students are encouraged to bookmark this site and refer to it often. University policies can also be found in full text at: http://www.cmu.edu/policies/.
