*82-303 or 82-304 may be repeated with a different topic for the 5th foundational course

Curricular clarifications:

- Students who place out of one or two intermediate level courses must take additional courses at the 300- or 400- levels to complete the required number of courses.
- Students may double count up to two courses taken for the French & Francophone Studies minor to fulfill the requirements of other majors, minors and programs. Double counting with General Education requirements is unlimited.
- Ideally, students will take 82-303 and 82-304 at least once before moving on to the 400-level. However, there will be flexibility based upon scheduled offerings.
- Students may repeat 82-303, 82-304, and/or 82-415/82-416 when they are offered with different topics.
- Students who have taken 82-303 and 82-304 at least once, and move to 400-level courses, and who might have to take a 300-level course again with a new topic to complete the major requirements, must register for 82-418 and complete work at the fourth-year level. In this situation, students must inform their course instructor.

- At least one 400-level course must be completed for the minor.
- Study abroad is always strongly encouraged.
