

Butterfly Scissors Game

(Adult) Cut a green sheet of construction paper, creating vertical strips to resemble grass and glued the edge to the bottom of the clipart.

Variation: If you don't have construction paper, have your child color a piece of paper using a green marker!

Variation: Have your child color their own bug background.

(Adult) Help child hold the scissors correctly initially until they start to cut away the grass... What is Hiding in the Grass??

(Child) Snip away to find out!

The activity lasts until child cuts every blade of grass to reveal the BUGS.

Finally, the grass is trimmed! I see flowers, butterflies, and a caterpillar!
