

I Love Bugs!

Have you ever touched a fuzzy caterpillar or watched ants carrying loads much too big for their size? Do you love to see colorful butterflies, twinkling fireflies, busy honeybees? Have you ever been amazed by a spider's perfect web or fallen asleep to the sound of a cricket's merry chirp? Then this song is for you.

Creepy -crawlies, crawly creepers, Wiggly squiggles, climbers, leapers. Bugs!

I love bugs and squiggly things,

Beetles with horns and moths with wings,

Caterpillars and bumblebees, Dragonflies and ants and fleas.

I love creepy-crawlies. I love bugs!

Whether they're big or whether they're small,

Whether they creep or fly or crawl,

Whether they wiggle or slide or hop,

Squiggle or tickle or flippity-flop,

I love creepy-crawlies. I love bugs!

I love to watch them work and rest,

And spin their webs and build their nests.

I love to watch the things they do.

It's just like having my own small zoo!

I love creepy-crawlies. I love bugs!

I see them on the ground and in the air.

I find them on the trees and everywhere.

Some live in the woods, some by the sea.

Sometimes they're in the kitchen where they shouldn't be, but

I love creepy-crawlies, I love bugs!

I love creepy-crawlies, I LOVE BUGS!
