

ENGAGEMENT OPPORTUNITY

The Open Energy Outlook (OEO) Initiative is a national leader in modeling energy systems, promoting transparency in research, and connecting research to real-world decisions. OEO invites leaders from industry, government, and nonprofit organizations to join our corporate partners.

Partners will shape the future of energy in the U.S. by:

- Planning energy transitions that meet environmental and other societal goals
- Identifying strategies to integrate new technologies and sources into energy systems
- Exploring relationships between energy policy and technology
- Democratizing understanding of energy system operations and modeling
- Devising least-cost pathways to meet U.S. energy demands

OEO PARTNER BENEFITS

UPSILLING TEAM MEMBERS

LIMITED TRAINING AND TECH SUPPORT FOR USING OEO MODELS

PARTICIPATING IN THE ANNUAL MEETING, PERIODIC PRESENTATIONS AND OTHER CONVENING EVENTS

ENHANCING VISIBILITY AMONG STUDENTS AND OUTSIDE ORGANIZATIONS

OPPORTUNITIES TO AUTHOR BLOG ARTICLES

FACILATED VISITS TO THE WILTON E. SCOTT INSTITUTE FOR ENERGY INNOVATION

ACCESS TO IDEATION ACTIVITIES THAT COULD FACILITATE TARGETED SPONSORED RESEARCH

ACKNOWLEDGEMENT ON THE OEO WEBSITE, IN PROMOTIONAL MATERIALS, AND AT SPONSORED EVENTS

BECOMING AN OEO PARTNER

Term: Three years

Cost: \$30,000/year

To join the OEO Consortium or for assistance in designing alternative collaborations that could better fit your needs, please contact Mike Blackhurst at: mfb@andrew.cmu.edu
