Kennametal
Simplification / Modernization

Jeevan Mulgund
Vice President Advanced Integrated Manufacturing Systems (AIMS)
Kennametal, Inc.

ABSTRACT:
Kennametal is making a significant investment to modernize its facilities globally. At its core, modernization is about customer service and growth – upgrading our equipment, improving our technology and investing in our people so that we are delivering the best in productivity and quality for our customers. This session will provide an overview of Kennametal’s modernization initiative and a discussion of the key factors to consider in integrating technology into operations.

BIOGRAPHY:
Jeevan Mulgund is Vice President Advanced Integrated Manufacturing Systems (AIMS) of Kennametal Inc. In this position, Jeevan is responsible for leading the strategic direction of Kennametal's factory of the future by adopting automation and digital technologies in the optimization of customer end to end (E2E) process flow and executing the Modernization program globally.
