Define
What is the risk/opportunity?

Define the risk/opportunity statement and how it aligns to the strategic objectives of the university.

Measure
What are the probability and consequences of the risk/opportunity?

Measure the risk/impact based upon appetite, likelihood, impact, and emerging trend to understand the scale of the risk/opportunity.

Mitigate
How is the risk/opportunity being managed?

Identify the controls and activities that are used to mitigate the risk, recommendations for improvement or enhancement, and new risks that emerge as a result.
