

STUDENT SERVICES SUITE – SUMMARY OF RELEASE #139

July 6, 2023

Release #139 introduced new functionality in Student Information Online (SIO) that enables student-instructors to choose to use their Preferred Name wherever their instructor name is listed on both internal and external websites. It also corrected an issue in S3 that caused the screen to “jump” when looking at a student’s Planned Schedule.

New users are encouraged to review the [S3 QuickStart Guide](#) and the [Web Tutorial](#) section for basic instructions.

Release Highlights

Cross-Cutting

- Introduced new functionality in Student Information Online (SIO) that enables student-instructors to choose to use their Preferred Name wherever their instructor name is listed on both internal and external websites
- Continued work to make S3 more accessible to all

Registrar

- Corrected an issue in S3 that caused the screen to “jump” when looking at a student’s Planned Schedule
- Corrected an issue in S3 where some places displayed the incorrect Primary Advisor for students who have more than one degree.

Student Accounts

- Continued work to support the goal of issuing electronic refunds to students on the Qatar campus
