STUDENT SERVICES SUITE – SUMMARY OF RELEASE #143   November 2, 2023

Release 143 included enhancements to traffic reporting used by The HUB so that the class of each student is included in the reporting. This will allow more insightful assessment and more accurate predictive service modeling moving forward.

New users are encouraged to review the S3 QuickStart Guide and the Web Tutorial section for basic instructions.

Release Highlights

Cross-Cutting

- Added a student's "class" to the HUB's Traffic Tracker report

Registrar

- Updated Transcript processing so that manual intervention is no longer required for BEA students with college honors

Undergraduate Admission

- Updated screens to account for the new SAT Digital scores
