

Release 152 introduced functionality that will let S3 users track multiple Affiliations for students. This release also updated Student Information Online (SIO) so that students can enter their ORCID iD on the My Info page, if they so choose.

New users are encouraged to review the [S3 QuickStart Guide](#) and the [Web Tutorial](#) section for basic instructions.

## Release Highlights

---

### Cross-Cutting

- Enabled capturing and storing of student ORCID IDs in Student Information Online (SIO)
- Continued work to make SIO more accessible to all by updating the SIO Graduation and Diploma screen
- Added functionality to sort columns on newer S3 screens for better data management

### Registrar

- Implemented expanded functionality to support multiple affiliations for students in S3

### Undergraduate Admission

- Removed S3's Where am I in the Process application that is no longer in use
