

Release 169 introduced new functionality that improves efficiency for the Student Accounts Office when processing student fee assessment exceptions.

New users are encouraged to review the [S3 QuickStart Guide](#) and the [Web Tutorial](#) section for basic instructions.

Release Highlights

Student Accounts Office

- Introduced new functionality that improves efficiency for the Student Accounts Office when processing student fee assessment exceptions

Registrar

- Fixed an issue in the Course Time Conflict (CTC) process where if a student had received a waitlist invitation prior to the approval, Student Information Online (SIO) did not recognize the conflict approval
- Fixed an issue in the CTC process where some instructors' courses were not correctly highlighted on the Faculty Course & Grade Info screen, and the incorrect course section was indicated in the email to the instructor
