

Release #3 introduced many Student Account screens. While many of these screens will not be used outside of the Enrollment Services department, this represents a big step forward for the S3 Admin Console project. When some of these Student Account SIS screens were “replicated” in S3, several aspects of new functionality were able to be added. At this time, no SIS screens have been retired.

Release Highlights

- Student Screens
 - Student Account (Account Profile, Account Activity, Refund Checks, Direct Loan returns)
- Student Account Office screens
 - Transaction posting
 - Batch maintenance
 - Direct Loan exceptions
 - Commodity Code maintenance
 - Refund processing

Corrected Technical Issues:

- ✓ Resolved inaccurate Enrollment status on the Course roster and some lists
- ✓ Users now have access to students whose primary degree/major is not in the user’s department, but do have a second degree in the user’s department

Related Functionality Not Yet Released

- Student screens: Complete contact information for student and listed ‘Family & Friends’
- Student screens: SIO Admin features such as Unofficial Academic Record and Planned Schedule

Coming in the Next Six Months...

- Development of OLR and the registration screens in SIS starting with the letter ‘O’ (referred to as ‘O’ screens)
- Fine tune authorization for S3 users

Identified Technical Issues:

- Continue to update/correct displayed data such as Student - Advisor; Course - Begin semester and Last Offered semester
- Improve the logic that drives which semester is displayed, and holding the semester from one screen to the next
- Review/adjust the data displayed on the Student: Waitlist screen
- Eliminate invalid/irrelevant options from the Search and other drop-down lists
