STUDENT SERVICES SUITE – SUMMARY OF RELEASE #69   July 6, 2017

Release #69 introduced new functionality for the Undergraduate Admission process.

New users are encouraged to reference the S3 QuickStart Guide and the Web Tutorial section for basic "how to" instructions.

Release Highlights

Cross-cutting
- Reconfigured and centralized authorization for the View-in-SIO module so that it is consistent and accommodating to various business needs.

Admission
- **FFP Feature Item:** Enhancements to Decision letters
- **FFP Feature Item:** Allow users to record Science and Math course information for applicants
- **FFP Feature Item:** Expanded the visual cues on the S3 screens for certain scenarios
- **FFP Feature Item:** Scores will now be merged in real time, instead of relying on a nightly process

Coming in the Next Six Months…

- Undergraduate Admission feature work including SLATE integration with S3
- Continued new development and screen enhancements for the University Registrar's Office and the Student Accounts Office
