

Release #73 introduced new functionality for the student account batch transaction process. New users are encouraged to reference the [S3 QuickStart Guide](#) and the [Web Tutorial](#) section for basic “how to” instructions.

Release Highlights

Admission

- **FFP Feature Items:** Completed work to link to Slate directly through the S3 screens

Registrar

- **FFP Feature Item:** Expanded information and functionality regarding the process to review and update a student’s maximum units per semester

Student Accounts

- **FFP Feature Item:** Implemented functionality to allow users to directly upload userbatch files and automatically audit any changes made to the files
- **FFP Feature Item:** Built a new icon to facilitate adding and viewing transactional comments within batches

Coming in the Next Six Months...

- Student Accounts Office feature work including an additional processing option for bulk transactions
- Cross-cutting feature work will include improvements to the SIO Planned Schedule screen, added efficiencies in the student record creation process, and new functionality to gather and provide student-specific information to staff
- Continued new development and screen enhancements for the Office of Undergraduate Admission and the University Registrar’s Office
