STUDENT SERVICES SUITE – SUMMARY OF RELEASE #85   November 1, 2018

> Release # 85 included the introduction of NameCoach in both the S3 Admin Console and in SIO. NameCoach provides students with the ability to record their name pronunciation through SIO. The recordings will be accessible from the course rosters and the header at the top of the student's page in S3.
>
> New users are encouraged to reference the S3 QuickStart Guide and the Web Tutorial section for basic "how to" instructions.

Release Highlights

Admission
- Created the ability for users in the Office of Admission to easily view an applicant's latest decision letter
- Improvements to some aspects of the new "Where Am I in the Process" portal

Registrar
- **FFP Feature Item**: Integrated new functionality with external software partner, NameCoach, in both the S3 Admin Console and in SIO
  - In SIO: students can record their name pronunciation and enter a typed out pronunciation of their name
  - In S3: Recordings may be accessed from the course roster page
  - In S3: A student's recording and phonetic spellings/name pronunciation are accessible in the header at the top of the student's page
- **FFP Feature Item**: Certain degree types will now require a thesis title to be entered before the degree can be certified
- **FFP Feature Item:** Improvements to Student Drop Vouchers:
  - In SIO: new "Cancel Voucher" option available for students
  - Confirmation emails will now be sent to the student's primary and secondary academic advisors, regardless of who submitted the voucher

Student Accounts
- Enhancements to the Student Collections screen

Coming in the Next Six Months…

- A newly redesigned S3 Admin Console home page
- Enhancements to MPS and SIO, including the ability for a student to grant others access to their schedules and/or grades
- The ability for departments to bulk update academic advisor assignments
