

## STUDENT SERVICES SUITE – SUMMARY OF RELEASE #88

March 7, 2019

Release #88 included small improvements to help make S3 more ADA compliant. The release also included enhancements that, in the future, will allow authorized users to update Academic Advisors in their department. Additionally, authorized academic advisors will have the ability to update the grading option or number of variable units of a course for which their advisee is registered.

New users are encouraged to reference the [S3 QuickStart Guide](#) and the [Web Tutorial](#) section for basic “how to” instructions.

## Release Highlights

---

### Cross-Cutting

- Improved the S3 Home and Find a Student pages to be more ADA compliant.

### RegistrarFFP

- **FFP Feature Item:** Corrected an issue where departments sometimes had difficulty registering students with a pending waitlist invitation when the course was reaching its maximum capacity.
- **FFP Feature Item:** Added enhancements that in the future will allow academic advisors to have the ability to update the grading option or number of variable units of a course for which their advisee is registered.
- **FFP Feature Item:** Expanded functionality that in the future will allow authorized users to add and update academic advisors for their department in the S3.

## Coming in the Next Six Months...

---

- Continued development to display and utilize anticipated transaction information for student accounts
- The ability for departments to bulk update academic advisor assignments
- A completely redesigned Memo system for S3 users
