STUDENT SERVICES SUITE – SUMMARY OF RELEASE #90   May 2, 2019

> Release #90 included improvements to the S3 integration with NameCoach, as well as development to further utilize anticipated transaction information for student accounts.
>
> New users are encouraged to reference the S3 QuickStart Guide and the Web Tutorial section for basic "how to" instructions.

Release Highlights

Student Accounts Office

- **FFP Feature Item:** Continued development to display and utilize anticipated transaction information for student accounts

Registrar

- Improved the NameCoach integration so that more student name recordings will be accessible in S3.
- Introduced a new warning message to display on the student's record and the course roster if Namecoach is unavailable
- Limited the amount of data available through SDW to the last 10 years
- Fixed a defect that required departments to enter a thesis title for certain degrees that do not require one

Coming in the Next Six Months…

- A completely redesigned Memo system for S3 users
- The first phase of the new My Community work for students and S3 users
