

Academic Audit Application Updates

April 2019

New Features

- Audits available as compact PDFs
- Mini semesters are now accessible in student planner
- Audit developments:
 - All exceptions can double count
 - "Taken" classes now prioritized over registered classes
 - GPA calculator allows customizable start and end dates
- Users can search for a course without campus constraint
- Availability to load concentrations into programs directly through feeder files
- Class Analytics now shows students' academic year when course was taken

Fixed Issues

- Updated double counting rules
- Fixed duplications in the Free Electives section
- Secondary concentrations now displaying all course details
- Courses with blank grades are excluded from unit totals
