Studying abroad in South Africa was truly an unforgettable experience! Stellenbosch University served as our host school, offering both a beautiful campus and a vibrant surrounding college town. We lived alongside current students, who helped us adjust to life in a new country and taught me so much about South African culture and everyday life.

Our program coordinators also gave us a rich and nuanced understanding of economic development through engaging guest speakers and field trips to wineries, schools, townships, and Cape Town. Beyond academics, we had many opportunities to explore South Africa's incredible natural landscapes, from botanical gardens and penguin colonies to safaris, hikes, and more. Altogether, the program allowed me to experience the country through its people, history, and natural beauty in a way I will always remember.

-Juliana Nunez

Highlights:

Complimentary drinks at the safari

Tour of Robben Island Prison

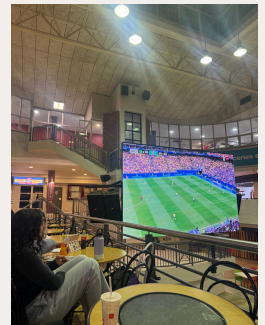

Birthday surprise during dinner

Foggy day on top of Table Mountain

Hiking Trail in Stellenbosch

Watching World Cup at Student Center

Field trips to wineries
